Directors

The names of persons who were directors of Mt Isa Metals Ltd during the whole of the half-year and up to the date of this report are:

Peter Spiers Nicholas Mather John Bovard Michele Muscillo

Review of Operations

Mt Isa Metals Limited is an Australian-based exploration company focused on the discovery and development of copper and gold deposits in world-class mineral provinces.

Significant activities which occurred during the half-year include:

- Drilling programs successfully completed for two key project areas in the Mt Isa region.
- Deep diamond drilling at the Gregory Project intersected variable width intervals of iron-oxide alteration and disseminated sulphides (primarily pyrite). Assay results confirmed a "live" copper system with low order anomalous copper values recorded (peak value 0.2% Cu).
- Significant copper assay results were received from the Barbara Copper Prospect (MET 49%) including:
 - o 8m @ 3.74% Cu and 0.27g/t Au from 32m (in BARC19)
 - o 9m @ 5.25% Cu and 0.45g/t Au from 31m (in BARC025)
 - o 7m @ 3.97% Cu and 0.26 g/t Au from 98m (in BARC038)
 - o 8m @ 3.25% Cu and 0.32 g/t Au from 10m (in BARC040)
 - o 6m @ 4.00% Cu and 0.29 g/t Au from 95m (in BARC044)
- A new priority drill target was identified in close proximity to Barbara North Lode. Surface channel sampling results at the "Green Zone" anomaly included 10m @ 1.0% Cu, and 15m @ 0.63% Cu.
- Surface exploration activities continued across a number of additional project areas in the Mt Isa region including the Isa North and Boomara Projects.
- Due diligence commenced over a number of gold properties in the world class Birimian Gold Province of Burkina Faso.
- Mt Isa Metals Limited withdrew from the D-Tree Phosphate Project. A\$0.50/t phosphate royalty is retained over any future phosphate production from the former Joint Venture area.

DIRECTOR'S REPORT

For the half-year ended 31 December 2009, the consolidated loss from ordinary activities for the economic entity after providing for income tax was \$732,816 (2008: \$875,788).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE HALF-YEAR ENDED 31 DECEMBER 2009

1. BASIS OF PREPARATION OF HALF-YEAR FINANCIAL STATEMENTS

These general purpose financial statements for the half-year reporting period ended 31 December 2009 have been prepared in accordance with Australian Accounting Standard 134 Interim Financial Reporting and the Corporations Act 2001.

The historical cost basis has been used, except for investment properties, land and buildings, derivatives and available-for-sale financial assets which have been measured at fair value.

These half-year financial statements do not include all the notes of the type normally included in annual financial statements and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated entity as the full financial statements. Accordingly, these half-year financial statements are to be read in conjunction with the annual financial statements for the year ended 30 June 2009 and any public announcements made by Mt Isa Metals Ltd during the half-year reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The same accounting policies and methods of computation have generally been followed in these half-year financial statements as compared with the most recent annual financial statements, except as follows:

(a) Determination and presentation of operating segments

The Group has applied AASB 8 Operating Segments and its associated amending standards from 1 July 2009. As of 1 July 2009 the Group determines and presents operating segments based on information that is internally provided to the board of directors, who are the Group's chief operating decision makers.

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. An operating segment's operating results are reviewed regularly by the board to make decisions about resources to be allocated to the segment and assess its performance, for which discrete financial information is available.

Segment results that are reported to the board include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate office assets, head office expenses, and income tax assets and liabilities.

Segment capital expenditure is the total cost incurred during the period to acquire property, plant and equipment, and intangible assets other than goodwill.

Comparative information has been re-presented so that it also is in conformity with the revised standard. Since the change in accounting policy only impacts presentation and disclosure aspects, there is no impact on earnings per share.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE HALF-YEAR ENDED 31 DECEMBER 2009

BASIS OF PREPARATION OF HALF-YEAR FINANCIAL STATEMENTS (continued)

(b) Going concern

The financial statements have been prepared on a going concern basis which contemplates the continuity of normal business activities and the realisation of assets and discharge of liabilities in the ordinary course of business. This includes the realisation of capitalised exploration expenditure of \$3,336,478 (30 June 2009: \$2,222,888). The ability of the company to maintain continuity of normal business activities, to pay their debts as and when they fall due and to recover the carrying value of their areas of interest, is dependent upon the ability of the company and to successfully raise additional capital and/or the successful exploration and subsequent exploitation of their areas of interest through sale or development.

(c) Comparatives

When required by Accounting Standards, comparatives have been adjusted to conform to changes in presentation for the current financial year.

INDEPENDENT AUDITOR'S REVIEW REPORT

To The Members of Mt Isa Metals Limited

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Mt Isa Metals Limited, which comprises the condensed statement of financial position as at 31 December 2009, and the condensed statement of comprehensive income, condensed statement of changes in equity and condensed statement of cash flows for the half-year ended on that date, a description of accounting policies, other selected explanatory notes and the directors' declaration.

Directors' Responsibility for the Half-Year Financial Report

The directors of the disclosing entity are responsible for the preparation and fair presentation of the half-year financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Act 2001. This responsibility includes establishing and maintaining internal control relevant to the preparation and fair presentation of the half-year financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of Interim and other Financial Reports Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the company's financial position as at 31 December 2009 and its performance for the half-year ended on that date; and complying with Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Mt Isa Metals Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001* would be in the same terms if it had been given to the directors as at the time that this auditor's review report was made.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Mt Isa Metals Limited and controlled entities is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the disclosing entity's financial position as at 31 December 2009 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and Corporations Regulations 2001.

Emphasis of Matters on Going Concern and Carrying Value of Exploration Expenditure

Without qualification to the opinion expressed above, we draw attention to the matters set out in Note 1(b). The financial statements have been prepared on a going concern basis which contemplates the continuity of normal business activities and the realisation of assets and discharge of liabilities in the ordinary course of business. This includes the realisation of capitalised exploration expenditure of \$3,336,478 (30 June 2009: \$2,222,888). The ability of the company to maintain continuity of normal business activities, to pay their debts as and when they fall due and to recover the carrying value of their areas of interest, is dependent upon the ability of the company and to successfully raise additional capital and/or the successful exploitation of their areas of interest through sale or development.

No adjustments have been made to the carrying value of assets or recorded amount of liabilities should the company plans not eventuate.
