

Announcement to the ASX

New Equity Facility

Sydney – Wednesday 7 July – iSOFT Group Limited (ASX: ISF) – iSOFT today announces that it has secured a \$30 million equity line of credit facility with US-Based Investment Fund YA Global Master SPV Ltd (YA Global).

iSOFT secured the facility in order to provide flexibility in cash management. It will initially be used to replenish cash balances drawn down to fund acquisitions and other capital investments undertaken during the 2010 financial year.

Under the terms of the facility, iSOFT may, at its discretion, issue shares to YA Global at any time over the next 60 months, up to a total of \$30 million. iSOFT may draw down these in tranches of up to \$2.5 million, although this may be varied by agreement with YA Global.

Shares issued to YA Global will be priced based on a formula that is related to daily volume weighted average price (VWAP) of iSOFT shares traded once an advance notice by iSOFT has been given.

The shares issued will be ordinary shares and be entitled to dividends – although there is currently no expectation that a dividend will be declared in respect of the current year.

End of release

About iSOFT Group

iSOFT Group Limited (ASX: ISF) is the largest health information technology company listed on the Australian Securities Exchange, and among the world's biggest providers of advanced application solutions in modern healthcare economies.

iSOFT works with healthcare professionals to design and build software applications that answer all of the difficult questions posed by today's healthcare delivery challenges. Our solutions act as a catalyst for change, supporting free exchange of critical information across diverse care settings and participating organisations.

Today, more than 13,000 provider organisations in 38 countries use iSOFT's solutions to manage patient information and drive improvements in their core processes. The Group's sustainable development is delivered through careful planning, in-depth analysis of the market, and anticipation of our clients' evolving requirements. Our business is driven by the collective talent, experience and commitment of more than 4,600 specialists in 17 locations worldwide, including more than 2,300 technology and development professionals.

A global network of iSOFT subsidiaries, supported by an extensive partner network, provides substantial experience of national healthcare markets. As a result, we offer our clients comprehensive knowledge of local market requirements in terms of culture, language, working practices, regulation and organizational structure.
