DRILLING RECOMMENCES AT SOUTH ZONE

9th FEBRUARY 2011

Baobab Resources plc ('Baobab' or the 'Company'), the iron ore, base and precious metals explorer with a portfolio of mineral projects in Mozambique, is pleased to announce that two reverse circulation (RC) drill rigs have mobilised to South Zone over the weekend and are currently drilling in Blocks 1 and 7.

Contracts are currently being finalised with two drilling companies to ensure a fleet of three RC rigs and two diamond drill rigs are available to support the Company's aggressive 30,000 metre drilling campaign in Tete through the 2011 season.

Commenting today, Ben James, Baobab's Managing Director, said: *"We are very pleased that we have been able to recommence resource drilling at South Zone. Although the wet season is by no means over, getting started early will enable us to bring forward project timelines."*
