CHINA MINING 2013 Welcome Address

Hosted by the Ministry of Land Resources, Tianjin Municipal Government and China Mining Association, the 15th CHINA MINING Conference and Exhibition 2013 will be held at the Tianjin Meijiang Convention and Exhibition Center on November 2-5, 2013.

CHINA MINING Conference and Exhibition - one of the world's largest mineral investment, cooperation and trading platforms - covers the whole value chain, including geological surveying, exploration development, mining rights trading, mining investment & financing, smelting & processing, technique & equipment, mining services and many more. CHINA MINING plays a critical role in creating more communication and co-operation opportunities for domestic and international industry communities.

Since the first time CHINA MINING was held in 1999, the scope and influence has been extending every year. CHINA MINING Conference and Exhibition has now become an annual not-to-miss event and a platform for the world mining players. Last year's event has concluded with great success - 429 exhibitors and 6000 delegates from 57 countries joined CHINA MINING 2012.

CHINA MINING Conference and Exhibition consists of three parts - Conference, Exhibition and Coherent Events.

During the Conference, government officials, industry leaders and experts from both Chinese and foreign mining industries have in-depth mining dialogues on questions related to the mining industry. The topics cover Summits with Keynote session, Global Mining Development Forum, and several stream sessions, including Policies & Financing, Prospecting & Exploration, Country Investment, Mining Commodities as well as Mining Sustainability and others.

The Exhibition includes China Land & Resources Area, Mining Countries Area, General Mining Area and Special Construction Area. The coherent CHINA MINING Equipment Show, this time in the 8th year, is dedicated to the largest and most professional mining equipment show providing a trade platform for the equipment producers and buyers. Moreover, as the latest feature, CHINA MINING 2013 will again have special promotions for traders. CHINA MINING Exhibition provides unique business opportunities for mining exploration companies and all-related service providers.

The 8th CHINA MINING Awards Gala Dinner together with other coherent events, such as Signing Ceremony of project investments and Government Welcome Dinner, etc. provide outstanding networking opportunities for the participants.

CHINA MINING Conference and Exhibition - an enhanced center of global mining communities with capital, technology, information and services - welcomes you to CHINA MINING 2013!

Policies and Financing

China's private mining outbound investment is growing fast these years. In this regard, CHINA MINING 2012 included sessions on China's Private Mining Outbound Investment and Chinese Private Enterprises Cross-Border Financing to analyze the international mining market and prospects of Chinese private enterprises.

The Panel Discussion of Mining Finance and Capital Market sponsored by TSX invited the outstanding leaders from financial institutions and mining companies to discuss how to leverage capital market and financing for Chinese companies overseas investment in mining.

Commodities Forum

Breakout sessions on hot commodities were arranged to discuss key minerals' demand and supply in China and the world, updates on the minerals' trends and impacts on mine development and exploration status. The covered minerals included: iron ore, base metals, precious metals, uranium, non-metals and other metals.

Prospecting, Exploration and Mining

Global mining exploration analysts and China government representatives from mining and geological survey discussed the status and trends of global exploration. In addition, China's geological survey development and geo-data utilization were specially introduced.

Mining Technology & Equipment Forum provided a platform to present latest technical innovations in exploration and mining. Delegates could visit the booths of presenting companies and learn more about covered techniques and equipments after

the session.

For the first year, CHINA MINING included a round table especially dedicated to Mining Procurement in China. The international giants discussed how they procure in China and the opportunities and obstacles of the mining procurement in China.

Sustainability in Mining and Mine Environment

China Mining 2012 and ICMM co-hosted a panel session on mining's contribution to sustainable development. The panel featured Chinese mining company leaders talking about how their companies' activities are contributing to sustainable development and how the principles of responsible modern mining are applied in China.

Country Investment Forum

CHINA MINING provided a fabulous platform for presenting mining investment opportunities in major mining countries. During 8 breakout sessions government representatives talked about mining, exploration and FDI in Africa, Argentina, Australia, Brazil, Canada, Greenland, Russia & Central Asia, Peru.

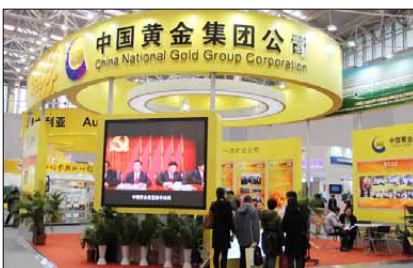

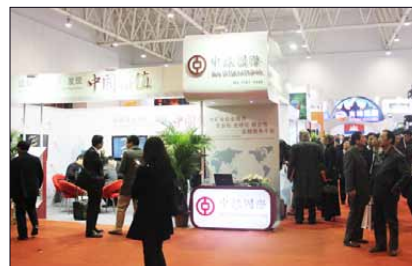

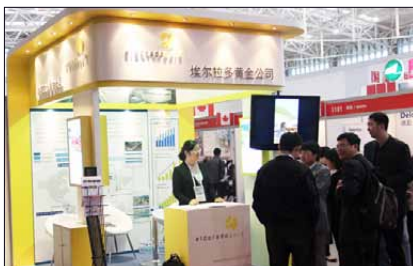

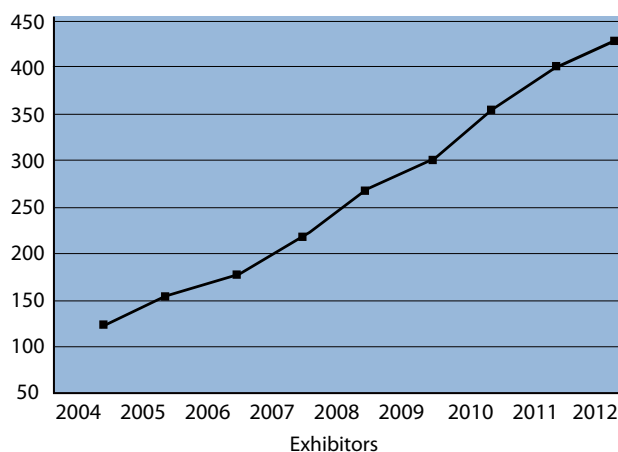

CHINA MINING 2012 Exhibition Review

Due to the high attendance at CHINA MINING Exhibition, CHINA MINING 2012 enlarged the exhibition for half a day, which attracted 429 exhibitors and enlarged the value for all participating companies. There were five exhibition areas: China Land & Resources Area, Mining Countries Area, General Mining Area, Special Construction Area and CHINA MINING Equipment Show. General Mining Area covered the whole value chain, including geological surveying, exploration development, mining rights trading, mining investment & financing, smelting & processing, technique & equipment, mining services, etc. It brought together the most influential mining corporations, international organizations and institutions. Country Pavilions included: Australia, Canada, Argentina, Greenland and Peru.
