

FOR IMMEDIATE RELEASE

A global leading energy company appointed SpeedCast to provide satellite communications services in Malaysia

SpeedCast enables connected offshore oil exploration and production

Kuala Lumpur, Malaysia, July xx, 2016 - [SpeedCast International Limited](#) (ASX: SDA), a leading global satellite communications and network service provider, today announced that it has been awarded a multi-year service agreement by a leading global energy company engaged in the exploration and production of crude oil and natural gas ("the Customer"), to provide managed satellite communications services for the Customer's offshore sites in Malaysia.

Under the service agreement, SpeedCast will provide managed VSAT network services for the Customer's Central Processing Platform (CPP) and the Floating Storage and Offloading (FSO) located in Malaysia. The CPP and FSO will share bandwidth dynamically with stringent QoS control, resulting in an efficient allocation of bandwidth to mission critical applications among the sites.

"We are thrilled to have the Customer on board our global VSAT network. SpeedCast field team has been working closely with the Customer to understand their requirements and customize our offering. Our extensive track record in providing advanced VSAT solutions across the globe for prestigious energy clients, and particularly offshore Malaysia with significant field support capabilities, make us stand out from our competition." said Keith Johnson, Senior Vice President, Energy of SpeedCast. "At SpeedCast, we greatly value and appreciate building a long-standing relationship with our customers, fulfilling their communications and IT requirements everywhere they operate." Mr. Johnson added.

This new win is one more demonstration of our growth in the energy sector as we gain market share." PJ Beylier, CEO of SpeedCast, emphasized. "We are seeing growing traction with heavy-weight players in the energy sector as we have built up and demonstrated our engineering, delivery and operational capabilities to the highest level, thus gaining the required credibility that can now open a lot of new doors". He added.
