

XM.co.uk : Payidentity™ live.

Highlights:

- **Payidentity service deployed to XM.co.uk on a commercial basis**
- **XM.com is an award winning, global leader in FX trading**

London, 24th April 2017- iSignthis Ltd (ASX : ISX) [‘the Company’] is pleased to announce that it has commercially deployed its Payidentity™ solution to XM.co.uk. The Payidentity™ service is now live on XM’s UK licensed operations, and is initially accessible to UK and EU residents.

About the Payidentity™ Service

The UK’s Joint Money Laundering Steering Group (JMLSG) and the EU’s 4th AML Directive (4AMLD) requires customers to be subject to on-going and continuous due diligence, with ongoing Know Your Customer (KYC) and transactional checks for unusual or suspicious activity required on active customer accounts.

The live Payidentity™ service includes:

- remote enhanced due diligence (EDD) to meet the KYC requirements of the EU’s 3 & 4AMLD’s, UK’s JMLSG, Austrac Regulations and Cypriot CySec Directives, and
- payment instrument verification, including for future PSD2 Strong Customer Authentication, and
- Full, cloud based, elastic computing delivering a PCI DSS V3.2 Level 1 payment gateway, and
- Risk based transaction monitoring, to mitigate fraud and monitor AML/CFT, and
- integration & payment processing to multiple card acquiring institutions from one API

Payidentity™ is the world’s most advanced automated identity and payments platform, incorporating real time remote verification of end users domiciled in any FATF or equivalent jurisdiction, leveraging verification of ‘*bank verified*’ payment instruments to establish identity. The Payidentity™ platform allows XM to on-board their customers at a much faster rate, whilst also increasing their overall customer reach.

The iSignthis® solution incorporates cascading KYC, which supplements UK residents from independent and reliable databases including credit reference agencies, electoral roll and government public access data with Payidentity™ data. This approach minimises customer friction for UK residents, by augmenting partial “1+1 matches” with Payidentity to deliver enhanced due diligence to satisfy the JMLSG and 4AMLD.

For the rest of world, where independent and reliable databases are limited, Payidentity™ provides the XM group with global reach and access to over 3.5Bn ‘*bank verified*’ potential customers, optimising customer on-boarding and conversions from marketing campaigns.

Reporting Notes

In order to preserve our customer's confidentiality, transactional volumes and values will not at any time be released on a per customer/merchant basis, and will only be released by sector aggregate crossed reported by product. (eg FX, eWallets, PSP, Gaming sector broken down by service I to IV above). Several already contracted FX/Trading sector clients are anticipated to be on-boarded to the Paydentity™ platform this financial quarter Q3-2017, with 'ramp up' to full volumes for each merchant within 2-3 months of each merchant commencing with ISX services.

Quarterly Detailed reporting by segment and product will be provided once transaction volume increases and value can be attained by providing transactional reporting.

About XM.com

With over 1,000,000 clients since it was founded in 2009, XM has grown to a large and well established international investment firm and has become a true industry leader.
