#### **About Australian Bauxite Limited: ASX Code ABZ**

Australian Bauxite Limited (ABx) holds the core of the newly discovered Eastern Australian Bauxite Province. Its 37 bauxite tenements in Queensland, NSW and Tasmania covering 8,500 km<sup>2</sup> were rigorously selected on 3 principles:

1. good quality bauxite;
2. proximity to infrastructure connected to export ports; and,
3. free of socio-environmental or native title land constraints.

All tenements are 100% owned and free of obligations for processing and third-party royalties. ABx has already discovered many bauxite deposits and new discoveries are still being made as knowledge and expertise grows.

The company's bauxite is high quality and can be processed into alumina at low temperature – the type that is in short-supply globally. **Global resources declared to date total 86 million tonnes.** At the company's first drilling prospect in Inverell, northern NSW, an interim resource of 38 million tonnes<sup>1,5</sup> has been reported from drilling 25% to 35% of the area prospective for bauxite and a resource of 25 million tonnes<sup>2</sup> of bauxite has been reported at the Taralga project in southern NSW. A 6 million tonnes maiden resource was declared at Guyra<sup>3</sup>. Results from the Binjour Plateau in central QLD confirm that ABx has discovered a significant bauxite deposit (17 million tonnes<sup>4</sup>) including some bauxite of outstandingly high quality. Australian Bauxite Limited aspires to identify large bauxite resources in the Eastern Australian Bauxite Province which is emerging as one of the world's best bauxite provinces.

ABx has the potential to create significant bauxite developments in three states - Queensland, New South Wales and Tasmania. Its bauxite deposits are favourably located for direct shipping of bauxite to both local and export customers.

**ABx endorses best practices on agricultural land, strives to leave land and environment better than we find it. We only operate where welcomed.**

The following are JORC-compliant Public Reports released to the ASX declaring the JORC resources referred to. These can be viewed on the ASX website and the Company will provide these reports, free of charge on request.

<sup>1</sup> 09/05/2012 ASX Inverell Resource Grade Improvement

<sup>2</sup> 12/05/2011 ASX Taralga Bauxite Resource Doubled to 25 Million Tonnes

<sup>3</sup> 15/08/2011 ASX Guyra Maiden Resource (6 Million Tonnes)

<sup>4</sup> 12/10/2011 ASX Binjour Maiden Resource (17 Million Tonnes)

<sup>5</sup> 02/09/2010 ASX Inverell JORC Resource Update (38 Million Tonnes)
