

## HERA MINE FORMALLY OPENED FIRST CONCENTRATE SHIPMENT COMPLETED ON SCHEDULE

## HERA MINE FORMALLY OPENED

Aurelia Metals Limited ("AMI" or the "Company") is very pleased to announce that the Hera gold-zinc-lead mine was formally opened yesterday by the NSW Minister for Resources and Energy, Mr Anthony Roberts MP and Mr Kevin Humphries MP, Member for Barwon. The opening was attended by Aurelia employees, Directors, shareholders, project partners and members of Nymagee community. In his address to the attendees, Mr Anthony Wehby, Chairman of Aurelia Metals commented, "*We are delighted to be opening of Stage one of the Hera-Nymagee Project today. Hera reflects the aspirations, sweat and financial investment of a great many people and it is a privilege to be part of this occasion*"

Aurelia staff celebrate the Hera Mine Opening

## FIRST CONCENTRATE SHIPMENT COMPLETED ON SCHEDULE

AMI completed the first shipment of 5,734 tonnes of zinc-lead concentrate from the Hera Mine, on the 25<sup>th</sup> November. The shipment is on schedule and above specifications grading 56% Pb+Zn. The concentrate will be sold to Aurelia's offtake partner Glencore. The Company is scheduled to be shipping concentrate approximately every 6 weeks.

Maiden shipment of Hera concentrates departs Newcastle Port

Aurelia Metals Managing Director Rimas Kairaitis commented, "*We are very pleased with our maiden concentrate shipment which represents another important milestone for the Hera Project.*"

## **ABOUT THE HERA-NYMAGEE PROJECT**

The Hera-Nymagee Project represents Aurelia's flagship Project and consists of the high-grade underground Hera gold-leadzinc-silver mine (Aurelia 100%) and the Nymagee copper deposit (Aurelia 95%), and is located approximately 100km southeast of Cobar, in central NSW. The deposits are hosted in the Cobar Basin, which also host the major mineral deposits at CSA (Cu-Ag), The Peak (Cu-Au) and Endeavor (Cu-Pb-Zn-Ag).

Aurelia is now in final plant commissioning stages of the Hera project with first production commenced in the September quarter 2014. The Hera Mine produces gold and silver doré bars by gravity and concentrate leach and also produces a high-grade bulk-lead-zinc concentrate for sale.

Aurelia Metal is the only junior gold-lead-zinc producer listed on the Australian Securities Exchange (ASX:AMI).

The Company is also currently evaluating the Nymagee copper deposit, located 4.5km to the north, with a view to demonstrating an integrated development of the Hera and Nymagee deposits.

Aurelia maintains a commitment to the ongoing exploration of the Hera-Nymagee Project and considers both deposits have the potential to evolve into very large "Cobar style' mineral systems.
