Software is eating the world

“We are in the middle of a dramatic and broad technological and economic shift in which software companies are poised to take over large swathes of the economy”¹

- Every industry is being disrupted rapidly, and becoming dominated by software companies
- White collar job functions are all headed to software, and moving into the cloud

Marketplace dynamics

“Every job, every country, every language, every currency, at any time”

Top country sources for project & contests in FY13¹

- Over 700 job categories as diverse as Aerospace Engineering, Biotechnology, Sales, Manufacturing, Mechanical Engineering, etc.
- Complexity & sophistication growing year by year
- Average job ~\$200³

Top project work categories by volume FY13²

Average Completed Project Value³ (A\$)

1. Based on the number of good projects & contests posted (a subset of total projects & contests posted) in the Freelancer Marketplace in FY13.

2. Based on the value of project payments in the Freelancer Marketplace in FY13. Note that projects may be associated with multiple job categories which results in the addition of each category of work being greater than 100%.

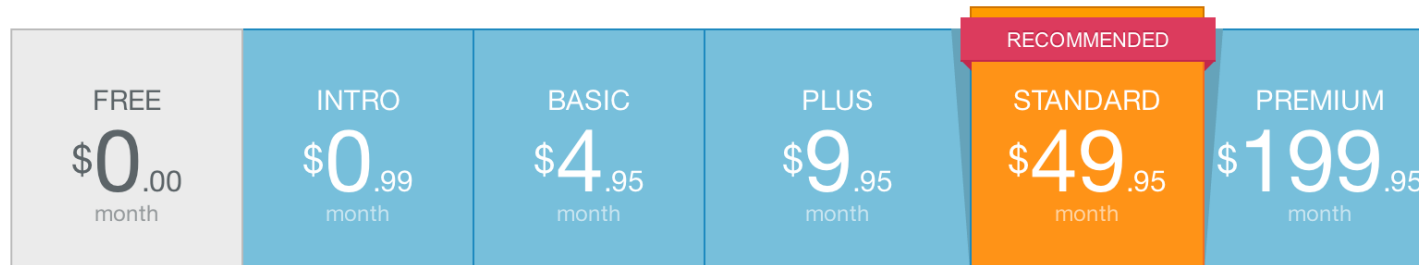

3. Average paid and completed job was A\$194.03 in 2013, based on AUD:USD exchange rate of 0.94. Includes data from acquired marketplaces.

Revenue model

Freelancer's revenue is generated from users posting jobs – as a project (outsourcing) or a contest (crowdsourcing)

- For employers it's **free** to post a project, **free** to review bids, **free** to talk to freelancers and review samples of work
 - **0-3%** project commissions paid by employers only when a project is awarded and accepted
- For freelancers it's **free** to view projects posted, **free** to bid on projects, **free** to talk to employers and provide samples of work
 - **3-10%** project commissions paid by freelancers only when a project is awarded and accepted
- Membership plans range from US\$0.99 to US\$199.95 a month, and provide additional features and benefits in addition to varied commission rates

- Other value added services include project upgrades, crowdsourcing contests and upgrades, bid upgrades, transaction fees, certification fees and advertising

Stellar revenue growth

Net revenue accelerated +77% in FY13, gross margin ahead of prospectus forecast

Net Revenue (A\$m) and Gross Margin (%)¹

- FY13 GPV growth drivers
 - User, project & contest acquisition growth
 - Conversion rate improvements
- Take rate improvement drivers
 - Growth in non-commission based revenues

1. Gross Payment Volume (GPV) is calculated as the total payments to Freelancer users for products and services transacted through the Freelancer website plus total Freelancer Revenue. Based on Freelancer's unaudited management accounts for the years ended 31 December 2010, 2011, 2012 and 2013, which have not been subject to an auditors review.

2. Take rate is calculated as Net Revenue divided by Gross Payment Volume.

HOW BIG IS THE MARKET?

Estimated demand for Web Design services

Freelancer's global web design revenue opportunity estimated as \$1.8 billion per annum (\$8.2b GPV)

- Web design in the US alone is US\$20 billion industry (2013)¹
- Wages constitutes US\$11.6 billion of this
- >50% of software engineering jobs can be outsourced at 30% of US wages²
- US\$1.74 billion in wages outsourced @ 22.2% take rate
= ~A\$410 million revenue opportunity for Freelancer in the US
(Total Available Market)⁴
- There are 28 million small businesses in the US, but at least 96 million more in other mid-high income OECD countries³
- From this we estimate the global opportunity is
(96+28)/28 = 4.4x larger than the US market
- **Freelancer's estimated global web design revenue opportunity at ~\$1.8 billion (\$8.2b GPV)**
- **This is as a replacement of existing business only and there is potential upside from opening up of new demand from lower cost labour services globally**
e.g. for the first time, a café can get a website for \$100

Comparison of hourly labour cost, index (US = 100)²

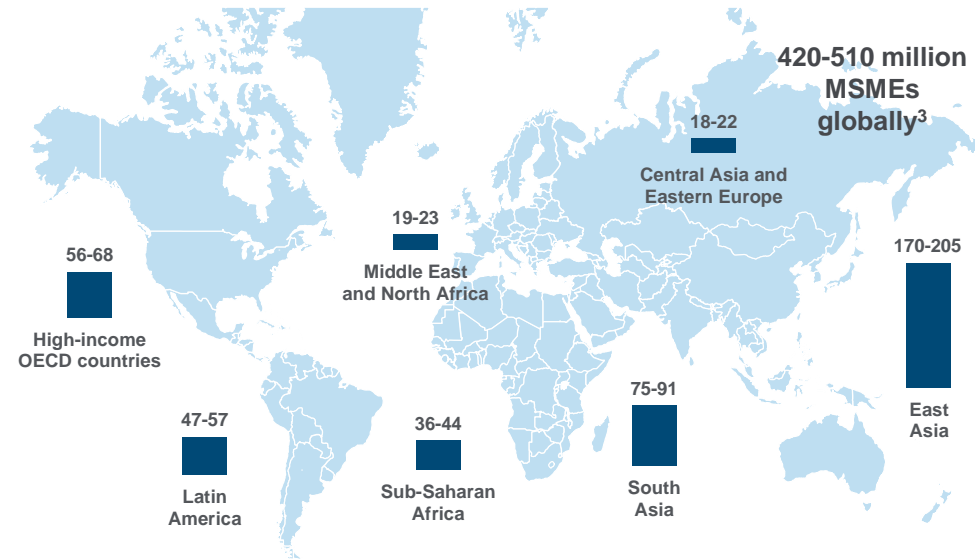

1. IBISWorld, "Web Design Services in the US" (August, 2013).
2. McKinsey Global Institute, "The Emerging Global Labor Market: Part III: How Supply and Demand for Offshore Talent Meet" (June, 2005).
3. Based on 28m SMEs in the US, 96m MSMEs outside the US in mid-high income OECD countries.
4. Based on AUD/USD exchange rate of 0.94.

Estimated demand from Small Businesses

Global small business revenue opportunity estimated as \$16.7 billion per annum (388 million projects, \$75.3b GPV)

- There are about 28 million small businesses in the US
 - 22 million of these are informal non-employers (yet generate >\$1 trillion per annum in revenue)¹
 - US job posters posted on average 3.13 projects in 2013²
 - Average project size in 2013 was \$194, generating revenue of \$43 to Freelancer (22.2% take rate)²
 - Implies \$3.8 billion TAM (\$17.0b GPV, 88m projects) from US SMEs
 - But there are 420 – 510 million micro, small and medium enterprises (MSMEs) globally³
 - 96 million are formal employer MSMEs outside the US in mid-high income nations⁴
 - Additional \$12.8 billion TAM (\$57.7b GPV, 301m projects)
- **Estimated global TAM from MSME market of ~\$16.7 billion (\$75.3 billion GPV, 388m projects)**
- This excludes another 100m+ informal (unregistered) MSMEs in high income nations globally including non-employer firms, sole proprietors and partnerships which could add another \$13.5b to FLN revenue opportunity

1. US Government, Small Business Administration Office of Advocacy.

2. Based on Freelancer internal statistics for FY13. Average paid value of completed project was A\$194 in 2013 (based on AUD/USD exchange rate of 0.94 and including acquired marketplace data).

3. McKinsey Global Institute, "Two trillion and counting: Assessing the credit gap for micro, small, and medium-size enterprises in the developing world" (October, 2010).

4. World Bank Statistics, International Finance Corporation. Excludes informal MSMEs including non-employer firms, sole proprietors and unincorporated partnerships.

Estimated demand from Consumers

Engaged active users on major product marketplaces are low hanging fruit for online services.

Major product marketplaces as a proxy of consumer demand indicates TAM of \$17.3b (400m projects, \$77.7b GPV)

2013 Revenue	US\$16.0 billion	US\$74.5 billion	~US\$8 billion	A\$18.8 million

Estimated supply of professional labour in the developing world

370 million people, or 10% of the 3.7 billion working age population in the developing world have a tertiary qualification

- 2010 global working age population: 3.7 billion, labour force: 2.9 billion¹

Cluster	Young Developing	Young Middle-Income	India	China	Young Advanced	Russia & CEE	Southern Europe	Aging Advanced
Workers Million	322	640	469	783	290	141	60	145
GDP per capita \$	<3,000 ²	3,000–20,000 ³	3,000	7,000	25,000–50,000 ⁴	10,000–20,000 ⁵	20,000–30,000	30,000–45,000

- 2030 predicted global labour force: 3.5 billion¹
- Of the 3.7 billion working age in the developing world in 2010:
 - 1.7 billion (46%) have a secondary education
 - 370 million (10%) have a tertiary education
- There are 220 million people with a tertiary degree between India, China, Brazil, Philippines, Malaysia, Indonesia, Egypt, Sri Lanka and Nigeria
- In the Philippines, tertiary education rose from 9% to 22% (13m) 1980-2010
 - Brazil, China, India @ 7 to 9%, yet produce ~5m STEM grads per annum³
- ~5 billion people to join the Internet over next decade that earn <\$10/day
- They have very little assets however are educated and can sell their services
- Freelancer.com is the first stop on the Internet for these people to raise their wages from \$10/day to \$10/hour+

Educational attainment (2010)

3. Accenture Institute for High Performance: Where will all the STEM talent come from? (May 2012)

Total Available Market

Freelancer's \$16b+ opportunity is driven by:

- **the significant wage differential between the developed & developing world;**
- **opening up of new demand as labour services pricing drops; and**
- **increasing labour supply driven by Internet penetration & education**

Important notice and disclaimer

This presentation has been prepared by Freelancer Limited (ACN 141 959 042) (**Freelancer** or the **Company**). The information contained in this presentation is current at the date of this presentation. The information is a summary overview of the current activities of the Company and does not purport to be all inclusive or to contain all the information that a prospective investor may require in evaluating a possible investment. This presentation is for general information purposes and is not intended to be and does not constitute a prospectus, product disclosure statement, pathfinder document or other disclosure document for the purposes of the Corporations Act 2001 (Cth) (**Corporations Act**) and has not been, and is not required to be, lodged with the Australian Securities & Investments Commission. It is to be read in conjunction with the Company's disclosures lodged with the Australian Securities Exchange, including the Company's full year results lodged with the Australian Securities Exchange on 27 February 2014.

The material contained in this presentation is not, and should not be considered as, financial product or investment advice. This presentation is not (and nothing in it should be construed as) an offer, invitation, solicitation or recommendation with respect to the subscription for, purchase or sale of any security in any jurisdiction, and neither this document nor anything in it shall form the basis of any contract or commitment. This presentation is not intended to be relied upon as advice to investors or potential investors and does not take into account the investment objectives, financial situation or needs of any particular investor which need to be considered, with or without professional advice, when deciding whether or not an investment is appropriate.

This presentation contains information as to past performance of the Company. Such information is given for illustrative purposes only, and is not – and should not be relied upon as – an indication of future performance of the Company. The historical information in this presentation is, or is based upon, information contained in previous announcements made by the Company to the market.

Forward looking statements

This document contains certain "forward-looking statements". The words "anticipate", "believe", "expect", "project", "forecast", "estimate", "outlook", "upside", "likely", "intend", "should", "could", "may", "target", "plan" and other similar expressions are intended to identify forward-looking statements. Indications of, and guidance on, future earnings and financial position and performance, including Freelancer's FY14 outlook, are also forward-looking statements, as are statements regarding Freelancer's plans and strategies and the development of the market.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors, many of which are beyond the control of Freelancer, which may cause actual results to differ materially from those expressed or implied in such statements.

Freelancer cannot give any assurance or guarantee that the assumptions upon which management based its forward-looking statements will prove to be correct or exhaustive beyond the date of its making, or that Freelancer's business and operations will not be affected by other factors not currently foreseeable by management or beyond its control. Such forward-looking statements only speak as at the date of this announcement and Freelancer assumes no obligation to update such information. The release, publication or distribution of this presentation in jurisdictions outside Australia may be restricted by law. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

Non-IFRS information

This presentation includes certain financial measures that are not recognised under Australian Accounting Standards (**AAS**) or International Financial Reporting Standards (**IFRS**). Such non-IFRS financial measures do not have a standardised meaning prescribed by AAS or IFRS and may not be comparable to similarly titled measures presented by other entities, and should not be construed as an alternative to other financial measures determined in accordance with AAS or IFRS. The information is presented to assist in making appropriate comparisons with prior periods and to assess the operating performance of the business. Freelancer uses these measures to assess the performance of the business and believes that information is useful to investors. Gross Payment Volume, EBITDA, and EBIT have not been audited or reviewed. Recipients are cautioned not to place undue reliance on any non-IFRS financial measures included in this presentation.

All references to dollars are to Australian currency unless otherwise stated.

To the maximum extent permitted by law, Freelancer makes no representation or warranty (express or implied) as to the accuracy, reliability or completeness of any information contained in this document. To the maximum extent permitted by law, Freelancer shall have no liability (including liability to any person by reason of negligence or negligent misrepresentation) for any statements, opinions or information (express or implied), arising out of, contained in or derived from, or for any omissions from this document, except liability under statute that cannot be excluded.
