## **MNF Group to Deploy Cloud Unified Communications Services (UCaaS) with BroadCloud**

**Sydney, Australia and Gaithersburg, MD, USA 24 October 2017** – MNF Group Limited (ASX: MNF) today announced an agreement with BroadSoft, Inc. (NASDAQ: BSFT), a global leader in cloud business software for unified communication as a service (UCaaS), and provider of collaboration and contact centre as a service (CCaaS), to provision UCaaS services in Australia and New Zealand on BroadCloud and MNF subsidiary Symbio Networks. MNF Group subsidiary MyNetFone, will market a full suite of voice and team collaboration services based on the BroadSoft Business UC-One application to Enterprise and Government customers commencing in the first calendar quarter of 2018.

MNF subsidiary Symbio Networks operates Australia's smartest voice network with a focus on delivering future-proof communication solutions. The company has a record of innovation in voice communications with a number of industry awards, including ACOMMs, iAwards and Edisons. Subsidiary MyNetFone is an industry disruptor facilitating the migration of voice services to the cloud for enterprises, SMEs and consumers.

Jonathan Reid, Managing Director, Asia Pacific and Emerging Markets, BroadSoft, said, "There is a clear global trend where large enterprises and government agencies are shifting from premise systems to cloud Unified Communications services. We look forward to working closely with MNF Group and believe they are an ideal partner to help accelerate this trend with customers in Australia and New Zealand."

"As Australia's leading next generation provider of hosted voice and data services, we look forward to working with BroadSoft to deploy MyNetFone services on BroadCloud. We believe that the trend towards cloud voice and collaboration services is inevitable as customers move away from legacy voice services. MyNetFone is already making strong inroads into the enterprise and government communications sector with our SIP trunking voice carriage service. With the BroadCloud integration we will be able to further expand the service suite to also deliver end-to-end voice solutions," said Rene Sugo, CEO of MNF Group.

BroadSoft Business is a fully integrated portfolio of enterprise-ready cloud, unified communications, team collaboration and contact center applications, delivered in the cloud. BroadSoft Business can scale to all market segments, and includes three core applications: UC-One, Team-One, CC-One, with BroadSoft Hub providing contextual intelligence across the entire platform so users can access the information and apps they need in one place.
