Andrew Kavasilas Interview

Andrew Kavasilas, Technical Director of Medical Cannabis Limited (MCL), has been interviewed by 2Ser 107.3 in relation to the work that he has been doing with Medical Cannabis Limited and Vitahemp, and in preparation for the upcoming Hemp Health and Innovation Expo, Australia's largest Cannabis Expo (<http://www.hhiexpo.com.au>). Andrew also discussed general information on the industry and Cannabis.

Shareholders are welcome to see some of the work of MCL being displayed at the Expo this coming Sunday at Rosehill Racecourse. Shareholders will have the opportunity to meet Mr Kavasilas and other MCL personnel at the expo.

The above interview can be accessed at the following web page:

<http://2ser.com/hemp-health-innovation-expo/>

Pnina Feldman, Executive Chairperson of Queensland Bauxite says "The team at Queensland Bauxite are delighted with its association with the fascinating work being undertaken by MCL, and are hopeful that QBL's investment in MCL will continue exponentially to be of benefit to QBL shareholders.

"We believe in the vast amazing opportunities currently being offered worldwide by developments in the Cannabis and hemp industries and feel privileged through our investment to be a part of this opportunity benefitting so many people throughout the world, with so much more potential to come as new avenues are being explored worldwide and new horizons open up here in Australia.

"It is interesting to note that a recent trial conducted by the Hebrew University of Jerusalem Israel, has successfully reversed memory loss and other cognitive ageing symptoms in mice treated with low doses of THC. Clinical trials will now begin in humans."

For further information please see the article released by the Hebrew University:

New and exciting research into the benefits of medicinal Cannabis is continually emerging and as MCL progresses in its own research in partnership with experts in the field, announcements will be made as they become material. MCL through its experience, contacts, unique seed bank and licenses is in an excellent first mover position to take commercial advantage of these advancements as they develop.

A handwritten signature in black ink, reading "Pnina Feldman".

Pnina Feldman  
Executive Chairperson  
Queensland Bauxite Limited

**About Queensland Bauxite**

Queensland Bauxite Ltd is an Australian listed company focused on the exploration and development of its bauxite tenements in Queensland and New South Wales. The Company's lead project is the South Johnstone Bauxite Deposit in northern Queensland which has rail running through the project area and is approximately 15-24 kilometres from the nearest deep water port. The Company intends to become a bauxite producer with a focus on commencing production at South Johnstone as early as possible. The Company also pursues additional investment opportunities, and has entered into an agreement to acquire 55% of Medical Cannabis Limited, an Australian leader in the hemp and Cannabis industries.
