TBH signs deal with UK platform provider to deliver racing solution and Global Tote access

Highlights

- **BetMakers signs UK platform provider InPlayNet to deliver racing solution including Global Tote access**
- **InPlayNet provides white label gaming and wagering solutions for operators across Europe and Asia.**

The BetMakers Holdings Limited (ASX:TBH) ("**Company**") today announced that its wholly owned subsidiary BetMakers DNA Pty Ltd (**BetMakers**) has signed an agreement with wagering platform provider, InPlayNet Entertainment Limited ("**InPlayNet**") www.inplaynet.com to provide the full racing solution including Global Tote access for their clients.

InPlayNet provide white label gaming and wagering solutions for operators across Europe and Asia.

BetMakers and InPlayNet will commence integration immediately and are expected to be live by October 2018.

BetMakers Managing Director, Todd Buckingham commented: *"This deal with InPlayNet will give BetMakers and in particular the Global Tote further distribution emphasizing its international attraction across jurisdictions. The racing solution being delivered to InPlayNet under this agreement covers all aspects of racing, including data delivery, odds and pricing, trading solutions and Global Tote."*

"InPlayNet partner with some of the world's leading providers for their software and data solutions such as NYX Gaming for their casino products and BetRadar for their sports solutions along other leading payment providers so it's great they will be partnering with BetMakers for their racing solution"

BetMakers will collect and distribute revenues for racing bodies through its data distribution deals and Global Tote.

BetMakers will generate revenues through a percentage of gross gaming with InPlayNet
