### TTC's Growth Strategy

TTC's multi-pronged growth strategy includes focusing on:

- Growing its number of franchised clinics; and
- Expanding its owned clinic network through the acquisition of existing clinics (from third parties or franchisees) or developing greenfield owned clinics in suitable locations.

The "owned clinic" model is one key focus of the company given the ability to generate a greater return on investment and its added advantage of assisting with projecting TTC's brand and further demonstrating the high standards of quality and service within the TTC network.
