

Xped Limited

INVESTOR ROADSHOW PRESENTATION

Xped Limited ([ASX: XPE](#)) (“Xped” or “the Company”) is pleased to release the following Investor Roadshow Presentation ahead of a planned North American roadshow this week.

Athan Lekkas - Chairman & CEO

Xped Limited

ABOUT XPED

Xped has developed revolutionary and patent protected technology that allows any consumer, regardless of their technical capability, to connect, monitor and control devices and appliances found in our everyday environment. It's as simple as two people shaking hands. By enabling the Internet of Things, Xped's ADRC platform will bring benefit to Manufacturers, Retailers, Service Providers and Consumers.

At Xped, we're **Making Technology Easy Again**

XPED INVESTOR ROADSHOW PRESENTATION
VERSION 1.0 // NOVEMBER 2016

xped

DISCLAIMER

This presentation is not a prospectus nor an offer for securities in any jurisdiction nor a securities recommendation. The information in this presentation is an overview, is based on publicly available information and internally developed data, and does not contain all information necessary for investment decisions. In making investment decisions in connection with any acquisition of securities, investors should rely upon their own examination of the assets and consult their own legal, business and/or financial advisors and should not be relied on in connection with a decision to purchase or sell for any securities.

The information contained in this presentation has been prepared in good faith by Xped Limited however no representation nor warranty expressed or implied is made as to the accuracy, correctness, completeness or adequacy of any statements, estimates, opinions or other information contained in this presentation.

To the maximum extent permitted by law, Xped Limited their directors, officers, employees and agents disclaim liability for any loss or damage which may be suffered by any person through the use or reliance on anything contained in or omitted from this presentation. Certain information in this presentation refers to the intentions of Xped Limited but these are not intended to be forecasts, forward looking statements or statements about future matters for the purposes of the Corporations Act or any other applicable law.

The occurrence of events in the future are subject to risks, uncertainties and other factors that may impact Xped Limited actual results, performance or achievements to differ from those referred to in this presentation. Accordingly, Xped Limited, their directors, officers, employees and agents do not give any assurance or guarantee that the occurrence of the events referred to in this presentation will actually occur as contemplated.

ABOUT XPED

Xped is an IoT technology building blocks and solution provider to the industry. By enabling the Internet of Things, Xped's infrastructure platform (XIP) and integration services will bring benefits to manufacturers, retailers, service providers and consumers.

Tap: Device discovery, provisioning and interoperability

Xped App: Device browser that delivers command and control to the end user

RML: Device description language based on XML

Gateway software: Business logic, rules engine, notifications and device management solutions

INTERNET OF THINGS

The Internet of Things (IoT) is about connecting electronic devices (Things) to each other and to people; so that these Things can communicate and exchange data, and people can interact with either the Things or the Data.

Things are anything and everything that has an on/off switch and some form of connectivity.

POTENTIAL VALUE OF THE IoT

9 business segments
give us a cross-
sector view of a total
potential impact of
\$3.9 - 11.1 Trillion
per year from 2025.

Source: 'The Internet of Things: Mapping the Value beyond the Hype', McKinsey Global Institute June 2015.

Home	Chore automation and security	\$200B-350B
Human	Health and fitness	\$170B-1.6T
Factory	Operations and equipment optimisation	\$1.2T-3.7T
Retail	Point of sale and inventory management	\$410B-1.2T
Buildings	Security and energy	\$70B-150B
Transportation	Logistics and navigation	\$560B-850B
Cities	Public health and transportation	\$930B-1.7T
Worksite	Operations, health and safety optimization	\$160B-930B
Vehicles	Autonomous vehicles and maintenance	\$210B-740B

IOT REVENUE STREAMS

Hardware

Selling connected devices and gateways that collect data

Infrastructure

Command and control, aggregating, securing and delivering the data

Analytics

Providing access and insights to 3rd parties

DATA MONETIZATION

- > Rich Media Advertising
- > IoT Vendors and e-Commerce
- > Insurance and Service Companies
- > Data Companies
- > Network Operators

OUR VISION

Accelerate IoT deployment and monetization for partners through simple, innovative, and user experience driven solutions.

Work with device manufacturers, service providers and retailers to deliver compelling user experiences based on Xped technologies.

Monetize our technology via licensing, revenue share and API metering.

Seamlessly, safely and securely move data across our platform.

We have a mantra of 'lean and flexible'.

XPED OFFER SOLUTIONS FOR:

OEM's

Retailers

Builders

Service
Providers

Healthcare
Providers

Property
Management

COMPETITIVE ADVANTAGE

IoT architecture: The highest level of interoperability

Unique UI/UX: Simple to learn and easy to use

Cloud: Novel cloud / client architecture for data monetization

XPED GOALS

Xped's primary goal is to become the number 1 IoT solutions provider in the world.

Top 5 App: To have our Xped app as one of the top 5 global software apps used on a daily basis.

Partnerships: Access global markets through strategic partnerships and acquisitions.

XIP COMPONENTS

User Interface

Xped has a keen focus on making technology simple - user interfaces that support voice, gesture, and augmented reality; AI integrations that anticipate your actions and needs.

Local Device Discovery

Simple and intuitive discovery and control of the devices you interact with around your life. Xped's technology will do the hard work, behind the scenes, to connect and interpret the action you want to make in a natural and intuitive way.

Xped IoT Gateway

Xped's technology will deliver the infrastructure to enable your connected environment. If it's your home, office, or the hotel room you just checked into, you have control at location or on the other side of the world.

Disclaimer: Companies and logos above are target partners only
and are not necessarily indicative of any existing partnership.

ACCELERATED GROWTH STRATEGY

Accelerated growth to be achieved by joint venture partnerships and acquisitions of well established companies that will allow us to release our platform, and expand our brand and profile in the market place to provide an end to end solution for all smart devices.

Acquisition of companies that help us establish footholds in the IoT marketplace for multiple vertical segments. We will lead with Health (JCT Healthcare), Home and Building.

Partnering with industry leaders (Intel, Telink, Complex Semiconductor) to enhance their products and services with Xped's Infrastructure Platform (XIP).

EVALUATION CRITERIA

An acquisition or partner candidate must meet all three of the following criteria to be considered:

1 Channel

Access to a channel or establish a foothold in a new market segment.

2 Knowledge

Implement XIP into existing use cases; deep understanding of market segment use cases and business models.

3 Technology

Value-add technology to the Xped platform to create the best seamless user experience possible for the end customer or consumer.

WHY JCT ACQUISITION

Established in 2002, JCT Healthcare is the manufacturer of Assistive Technology and Nurse Call Systems to provide total control over the end to end solutions delivered.

JCT

Health IoT Market expected to reach \$163 Billion by 2020:

Target markets: Hospitals, Independent Living Facilities, Home Care, Aged Care

Existing technology: Nurse Call Solution, NuCAMS Messaging Software, API Integration

Channel access: Provides established foothold in Health for expansion of Xped's technologies

THE TELINK AGREEMENT

Telink is a cost-competitive fabless IC design house that develops highly integrated low power radio-frequency and mixed signal system chips for IoT applications.

Current technology: 2.4Ghz RF SoCs
- Bluetooth, Zigbee, Thread, 6LoWPAN, Homekit, Analog ICs - resistive/capacitive/electromagnetic touch control

Current partners: GE, Intel, Apple, Skyworth, MediaTek, Lenze

Agreement: Channel partner agreement for Xped Platform, Licensing of ADRC Proxy firmware for Bluetooth SoCs, Joint development of new SoCs

WHY CODIUM ACQUISITION

Codium is one of Australia's leading providers of custom software development and support services.

Codium services:

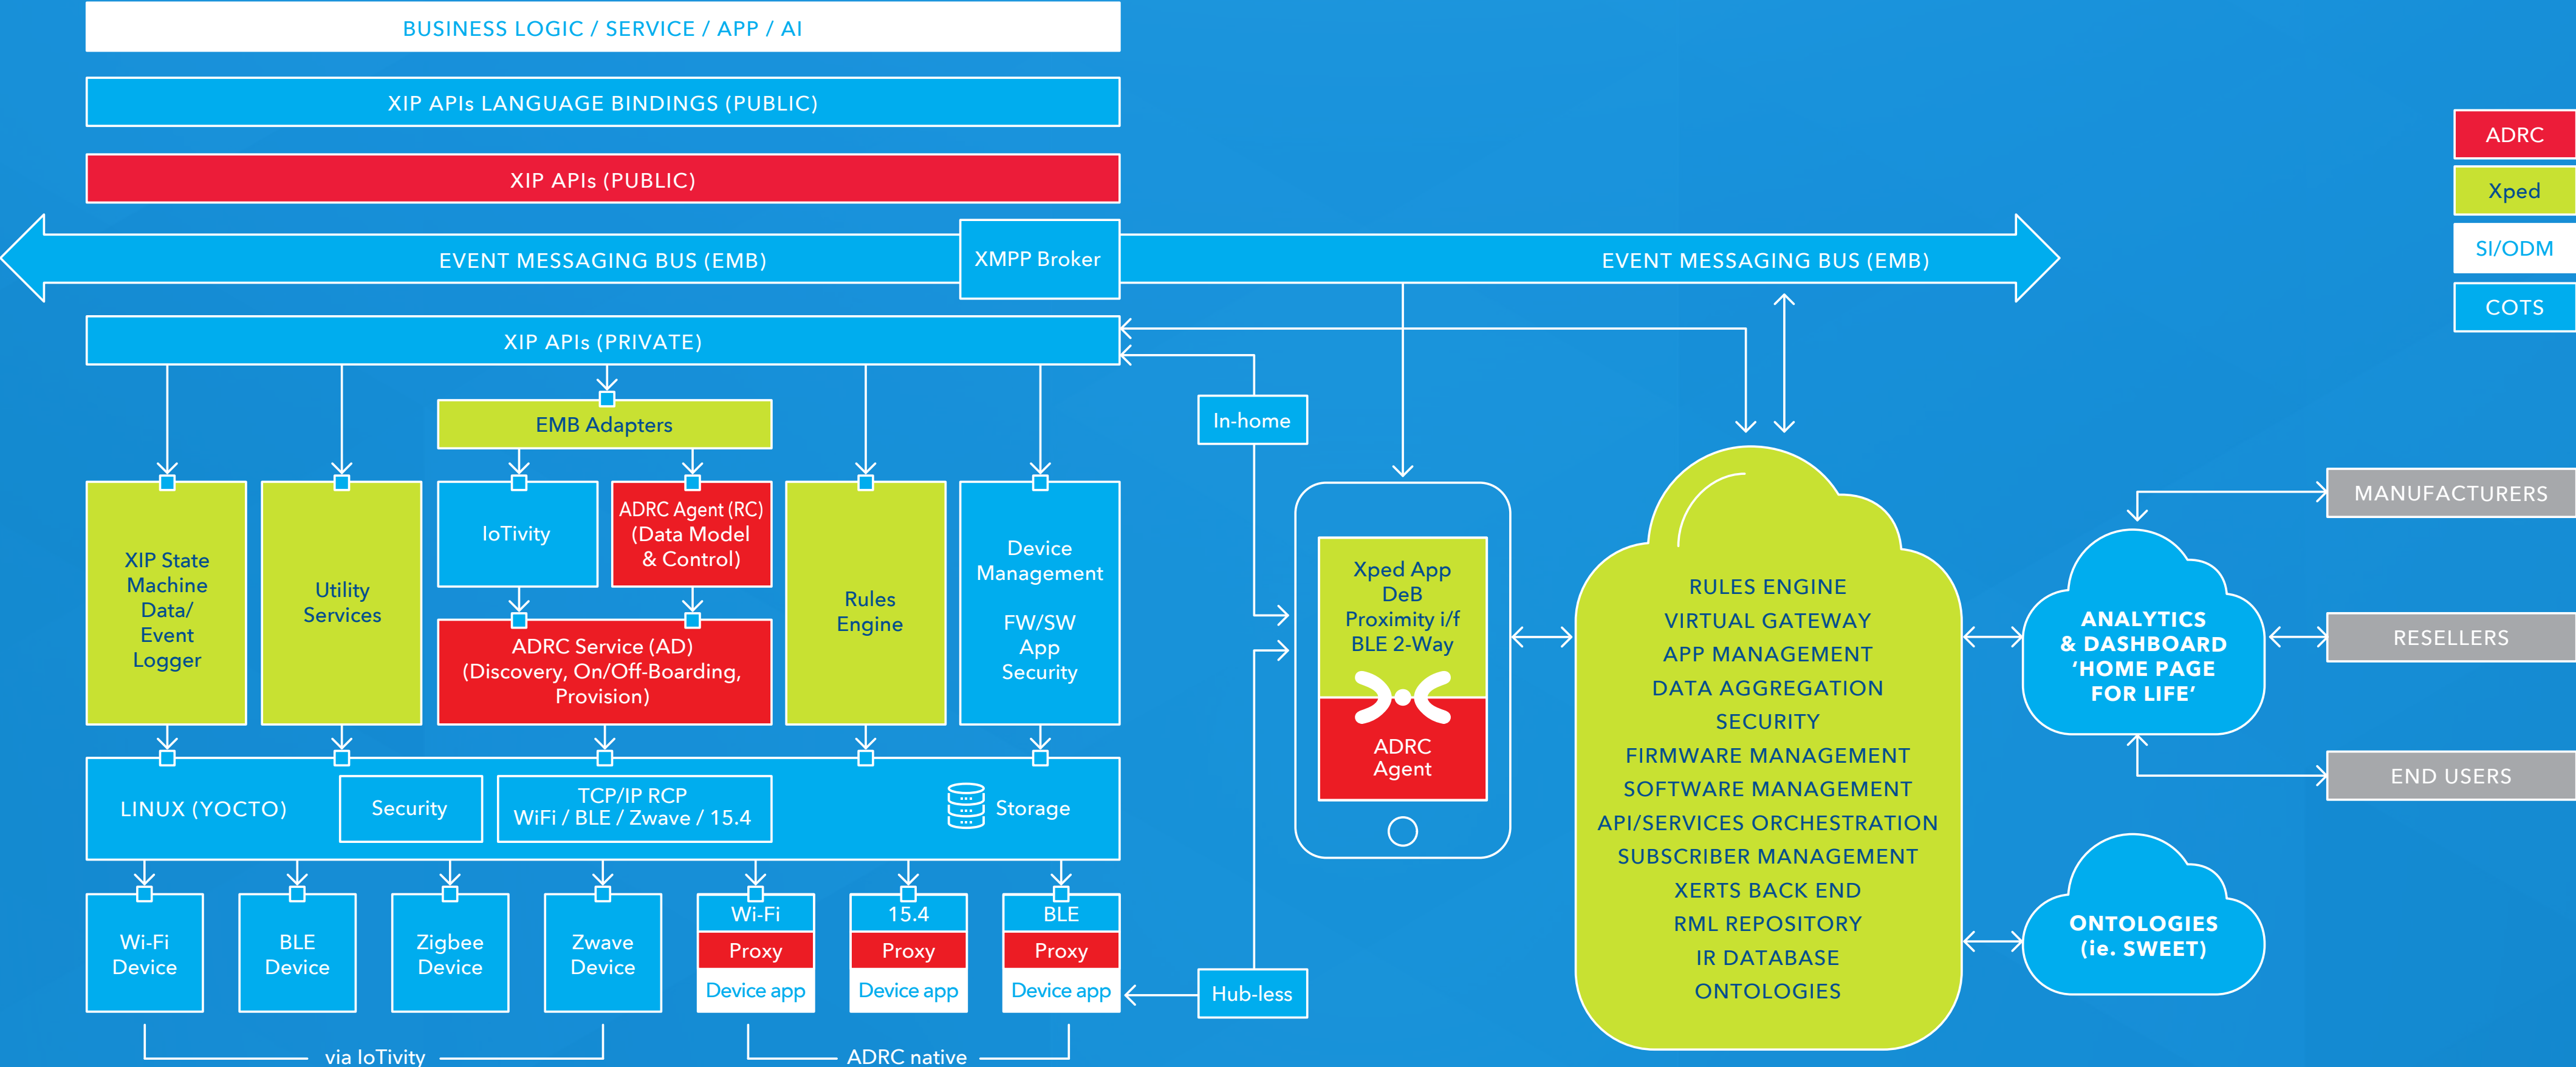

- > Cloud Application Development
- > Process Automation
- > Software Integration
- > Database Development
- > User Experience Design

Value to Xped:

Customization of Xped App for customers, channels, and markets, integration of Xped technology and Partner IP for custom end-to-end solutions, and API Development and Management.

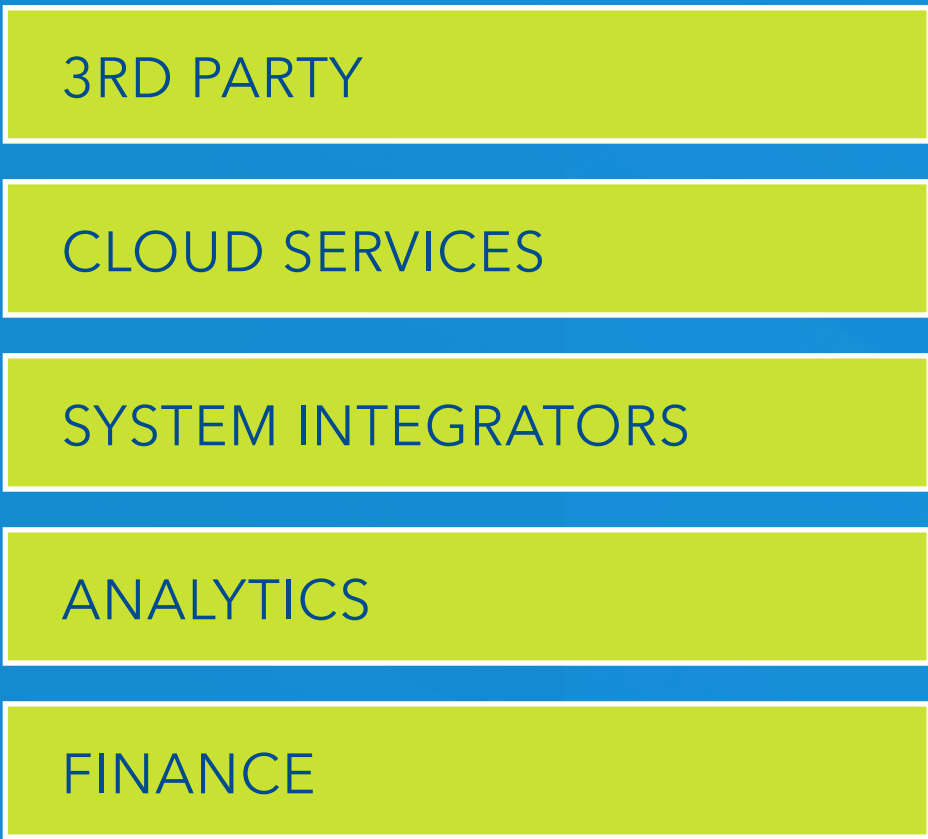

XPED INFRASTRUCTURE PLATFORM

XPED SERVICES MODEL

Ecosystem Partners

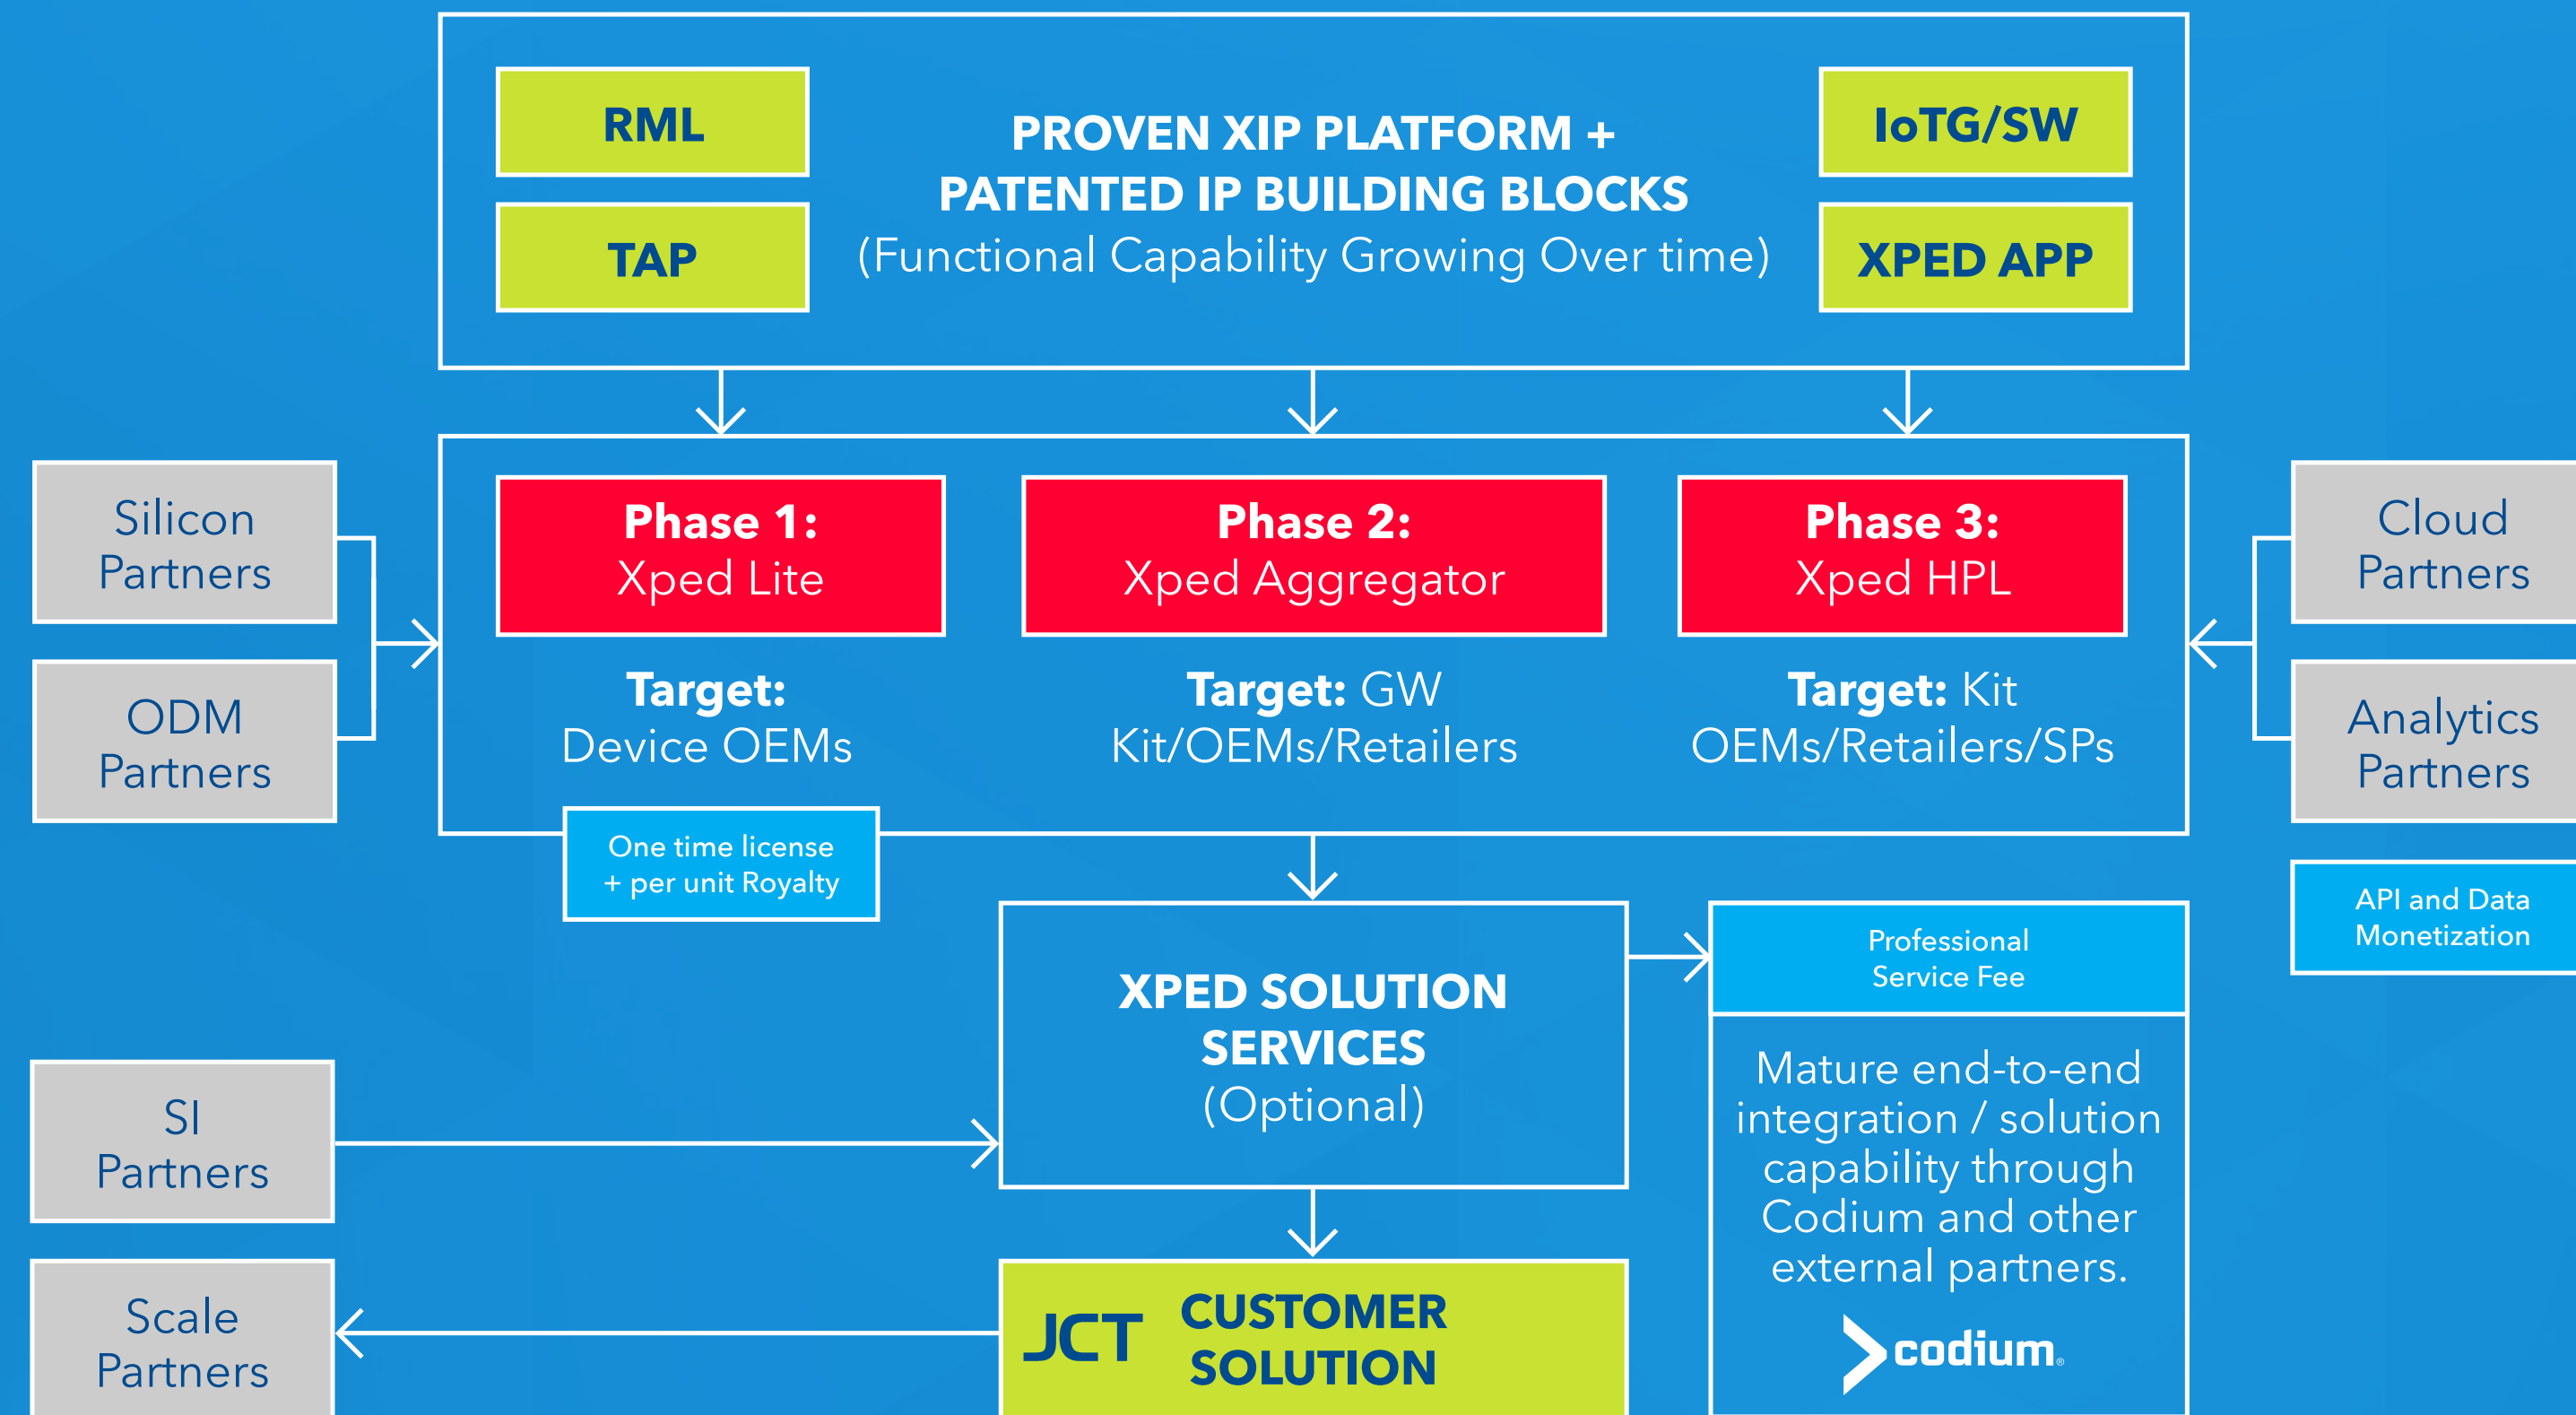

Xped Services

Scale Partners

PATH TO REVENUE

Start with what we have:

- > JCT Pipeline
- > Codium Pipeline
- > Si and ODM Partners
 - Xped-Lite, Codium

Expand the Value Prop:

- > Health / Building / Home
 - JCT: Lightsview, Vital Xense, Xped Aggregator

Scale and Monetize APIs:

- > Home Page for Life
 - Cloud Services, API Management

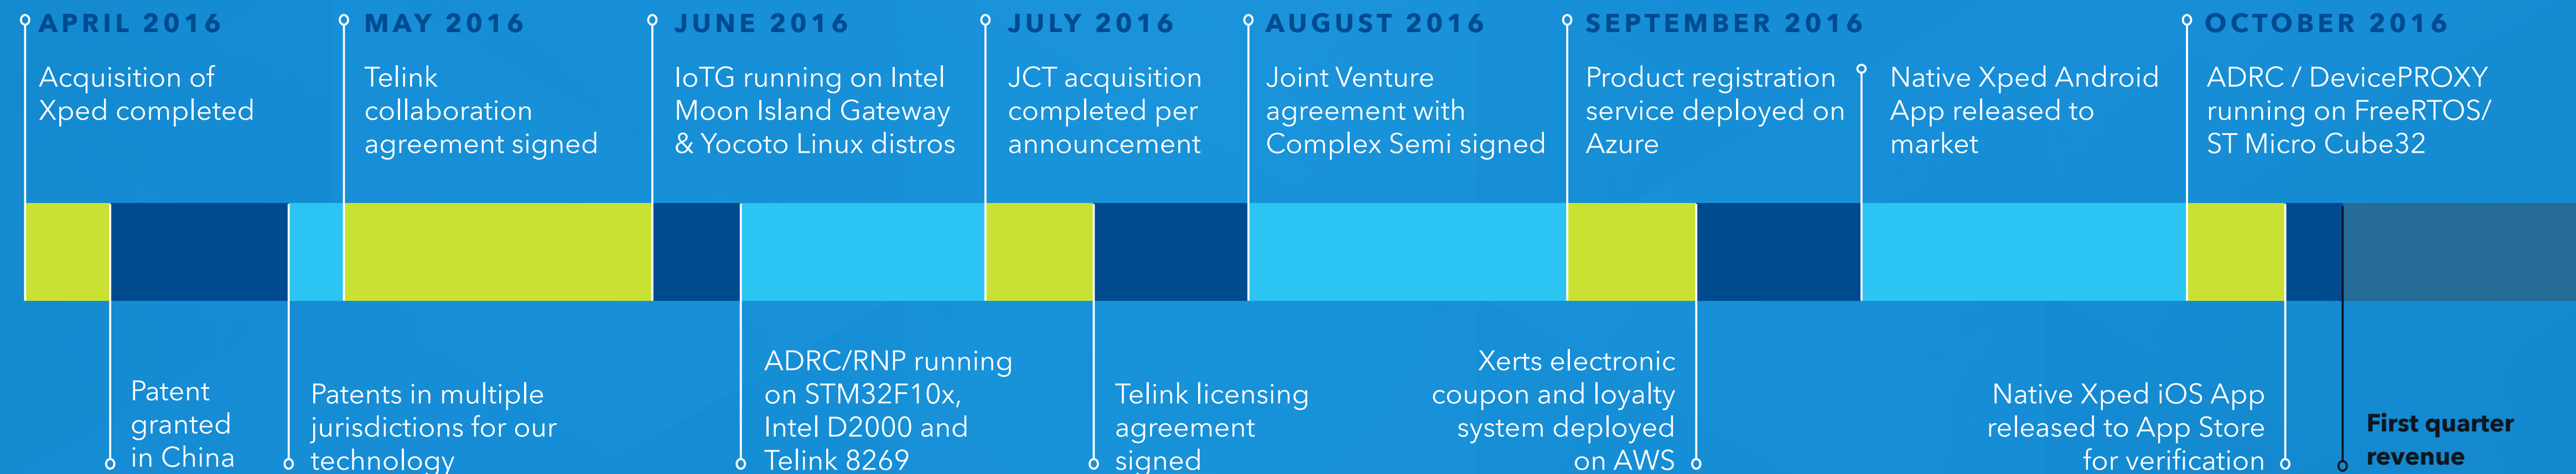

PROGRESS TO DATE

We've achieved many milestones over the past few months with our patents being approved in multiple jurisdictions and our Xped App released to market.

Our progress has set us up to continue to develop our platform and gain traction within the market.

First revenue began in July with the acquisition of JCT.

ROADMAP

Q4 2016 – Q1 2017

Telink- Free RTOS, BLE Mesh port

Complex Semi (Lenze)

- Bluetooth Control and Device Registration (Xped Mobile App)
 - BLE for Single Device - Discovery, Provision, Control, Registration
 - Plug/IRDA Blaster Productization
 - Super App Development (multi-device Xped Mobile App)
-

Productize Discover Hub Sensor System

Execute on JCT request for proposals

Q2 – Q3 2017

Launch Intel Based IoT Gateway with XIP in market

Scale XIP port to additional *Si vendors such as Espressif, Silicon Labs and Rockchip

Scale JCT Healthcare solution beyond Australia – China, US and Europe

* Potential targets

CURRENT PRODUCT STATUS

DEFINITION	DEVELOPMENT	TESTING	PRODUCTION
BLE Module	DeB- BT	Xerts	JCT Nurse Call
Env Sensors	ADRC- Telink	Intel mPCI-E	Xped App v1.0
lotivity Integration	Discover Bus	Vari Plug	
JCT-Smart App	IR Blaster	Ultra Plug	
WiFi Module	Battery Monitoring		
802.15.4 Module			

PHASED APPROACH

Phase 1: Xped Lite

ADRC, Xped App and
RML implementation
for single devices

Phase 2: Xped Device Aggregator

Expand Xped Lite to multiple
device support and non-
ADRC compliant devices.

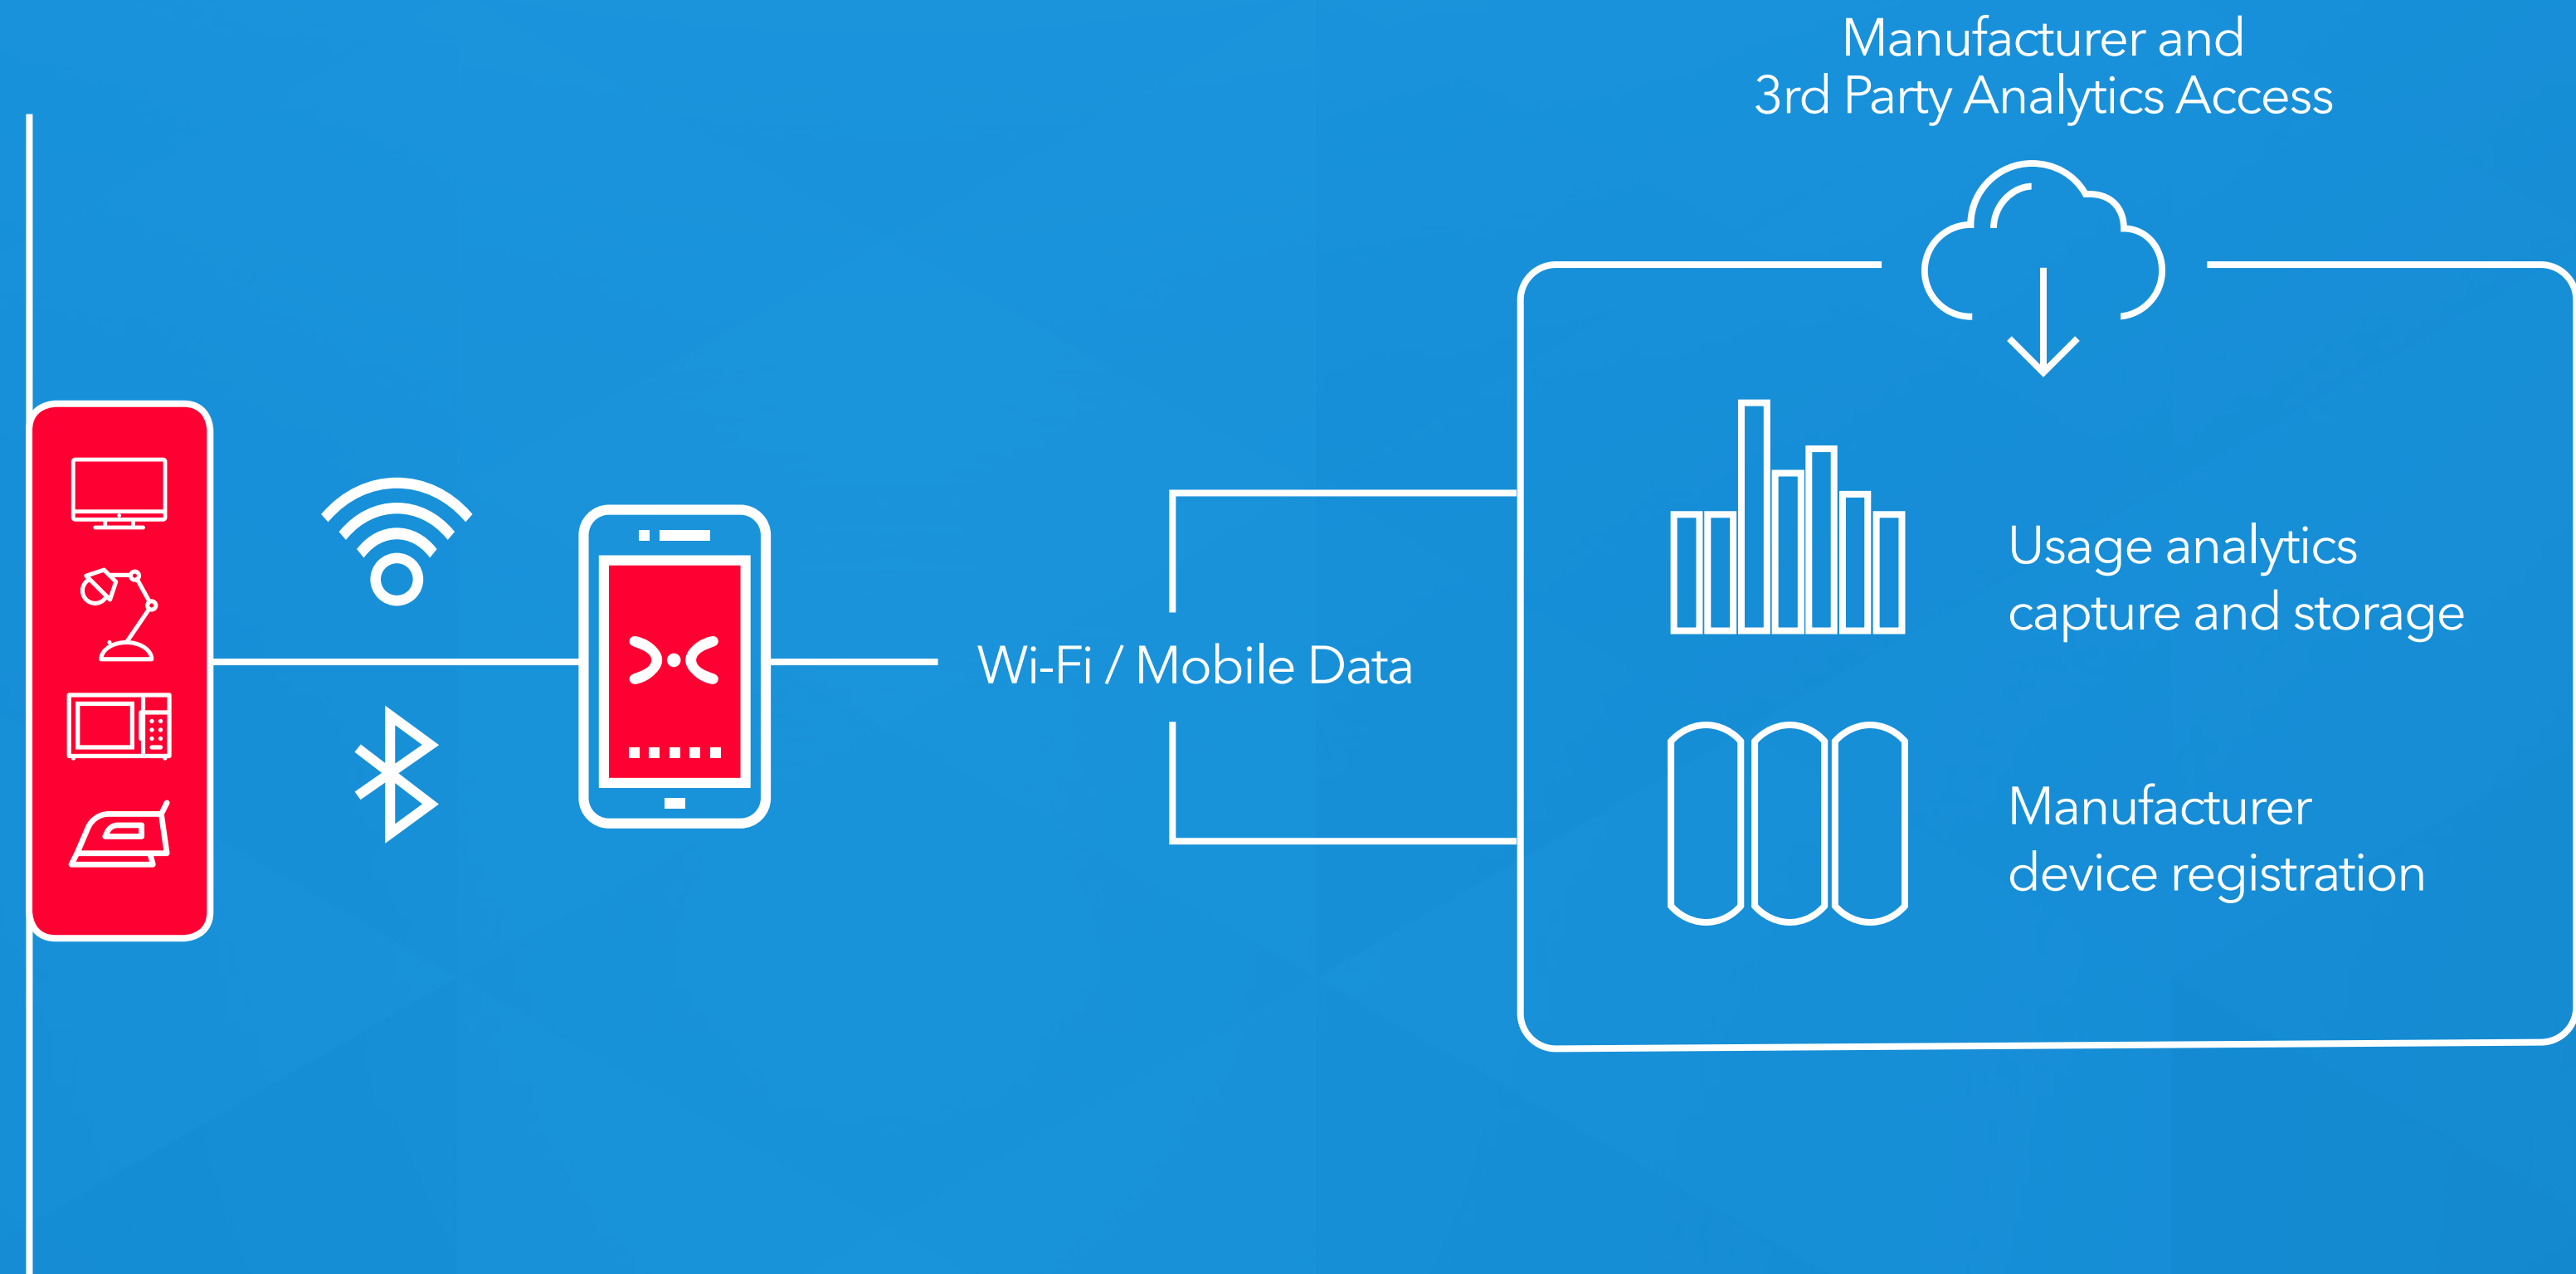

Phase 3: Home Page for Life

Xped Device Aggregator
combined with API
Management and
Services orchestration

PHASE 1: XPED LITE

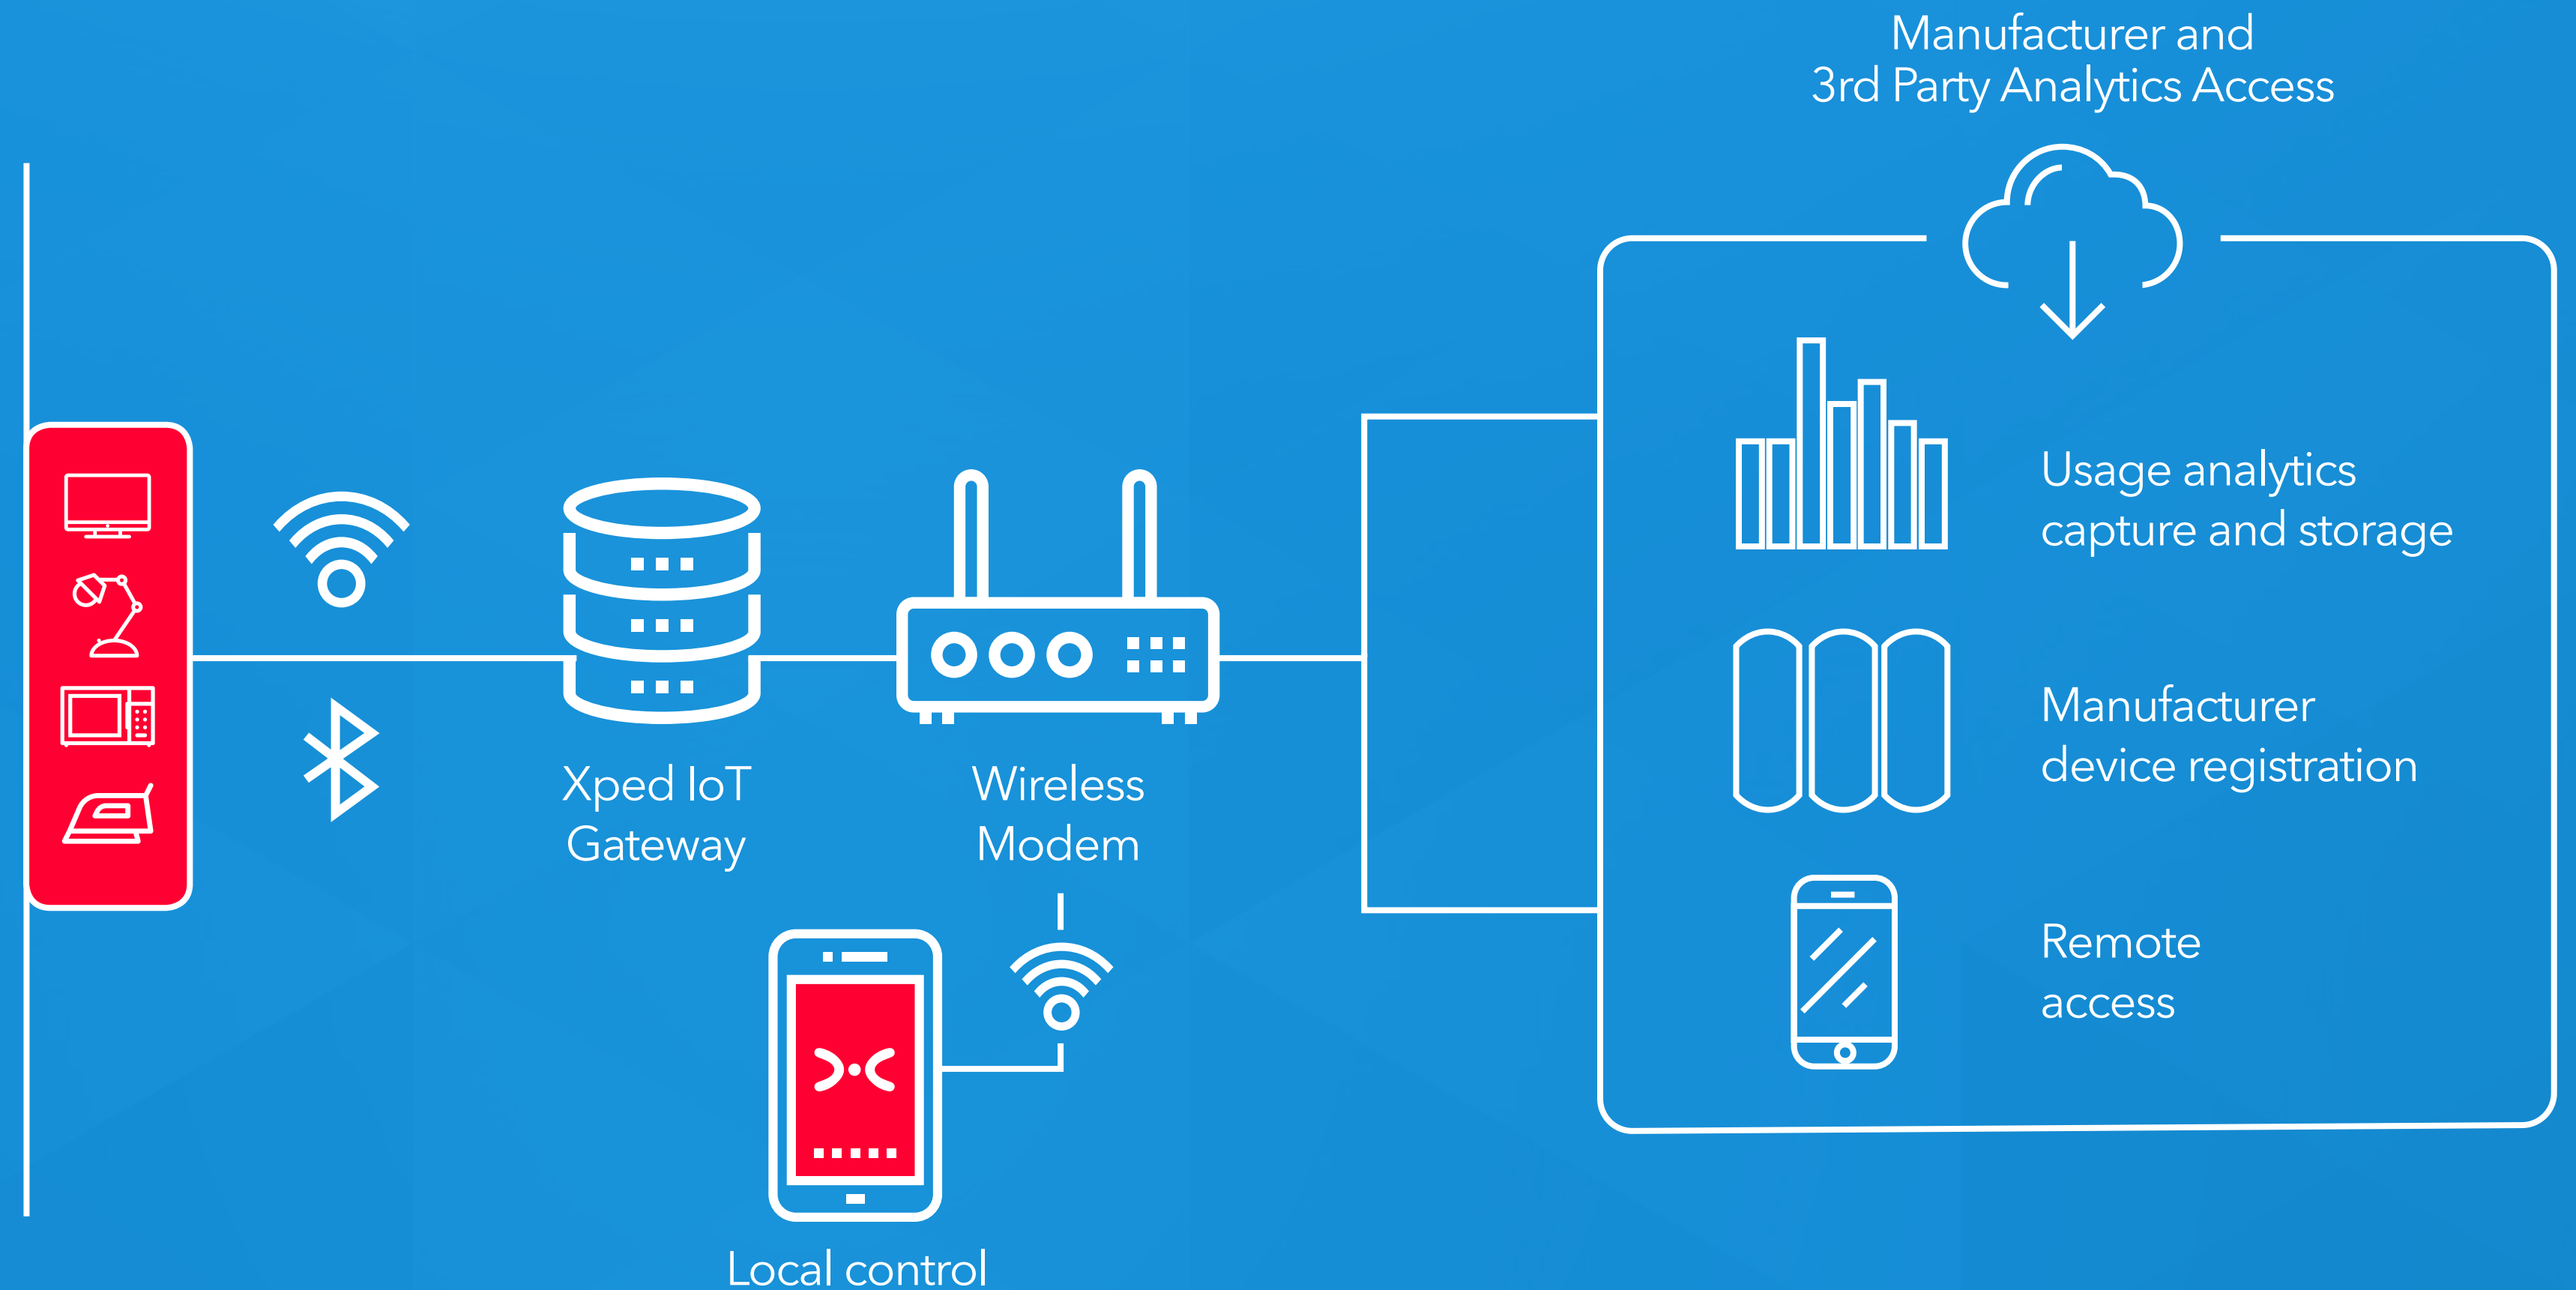

Single and multi-ADRC device control via Bluetooth and Wi-Fi

PHASE 2: XPED DEVICE AGGREGATOR

Single and multi-ADRC & non-ADRC device control via Bluetooth, 802.15.4 and Wi-Fi

PHASE 3: HOME PAGE FOR LIFE

XIP will aggregate all aspects of your home or business life:

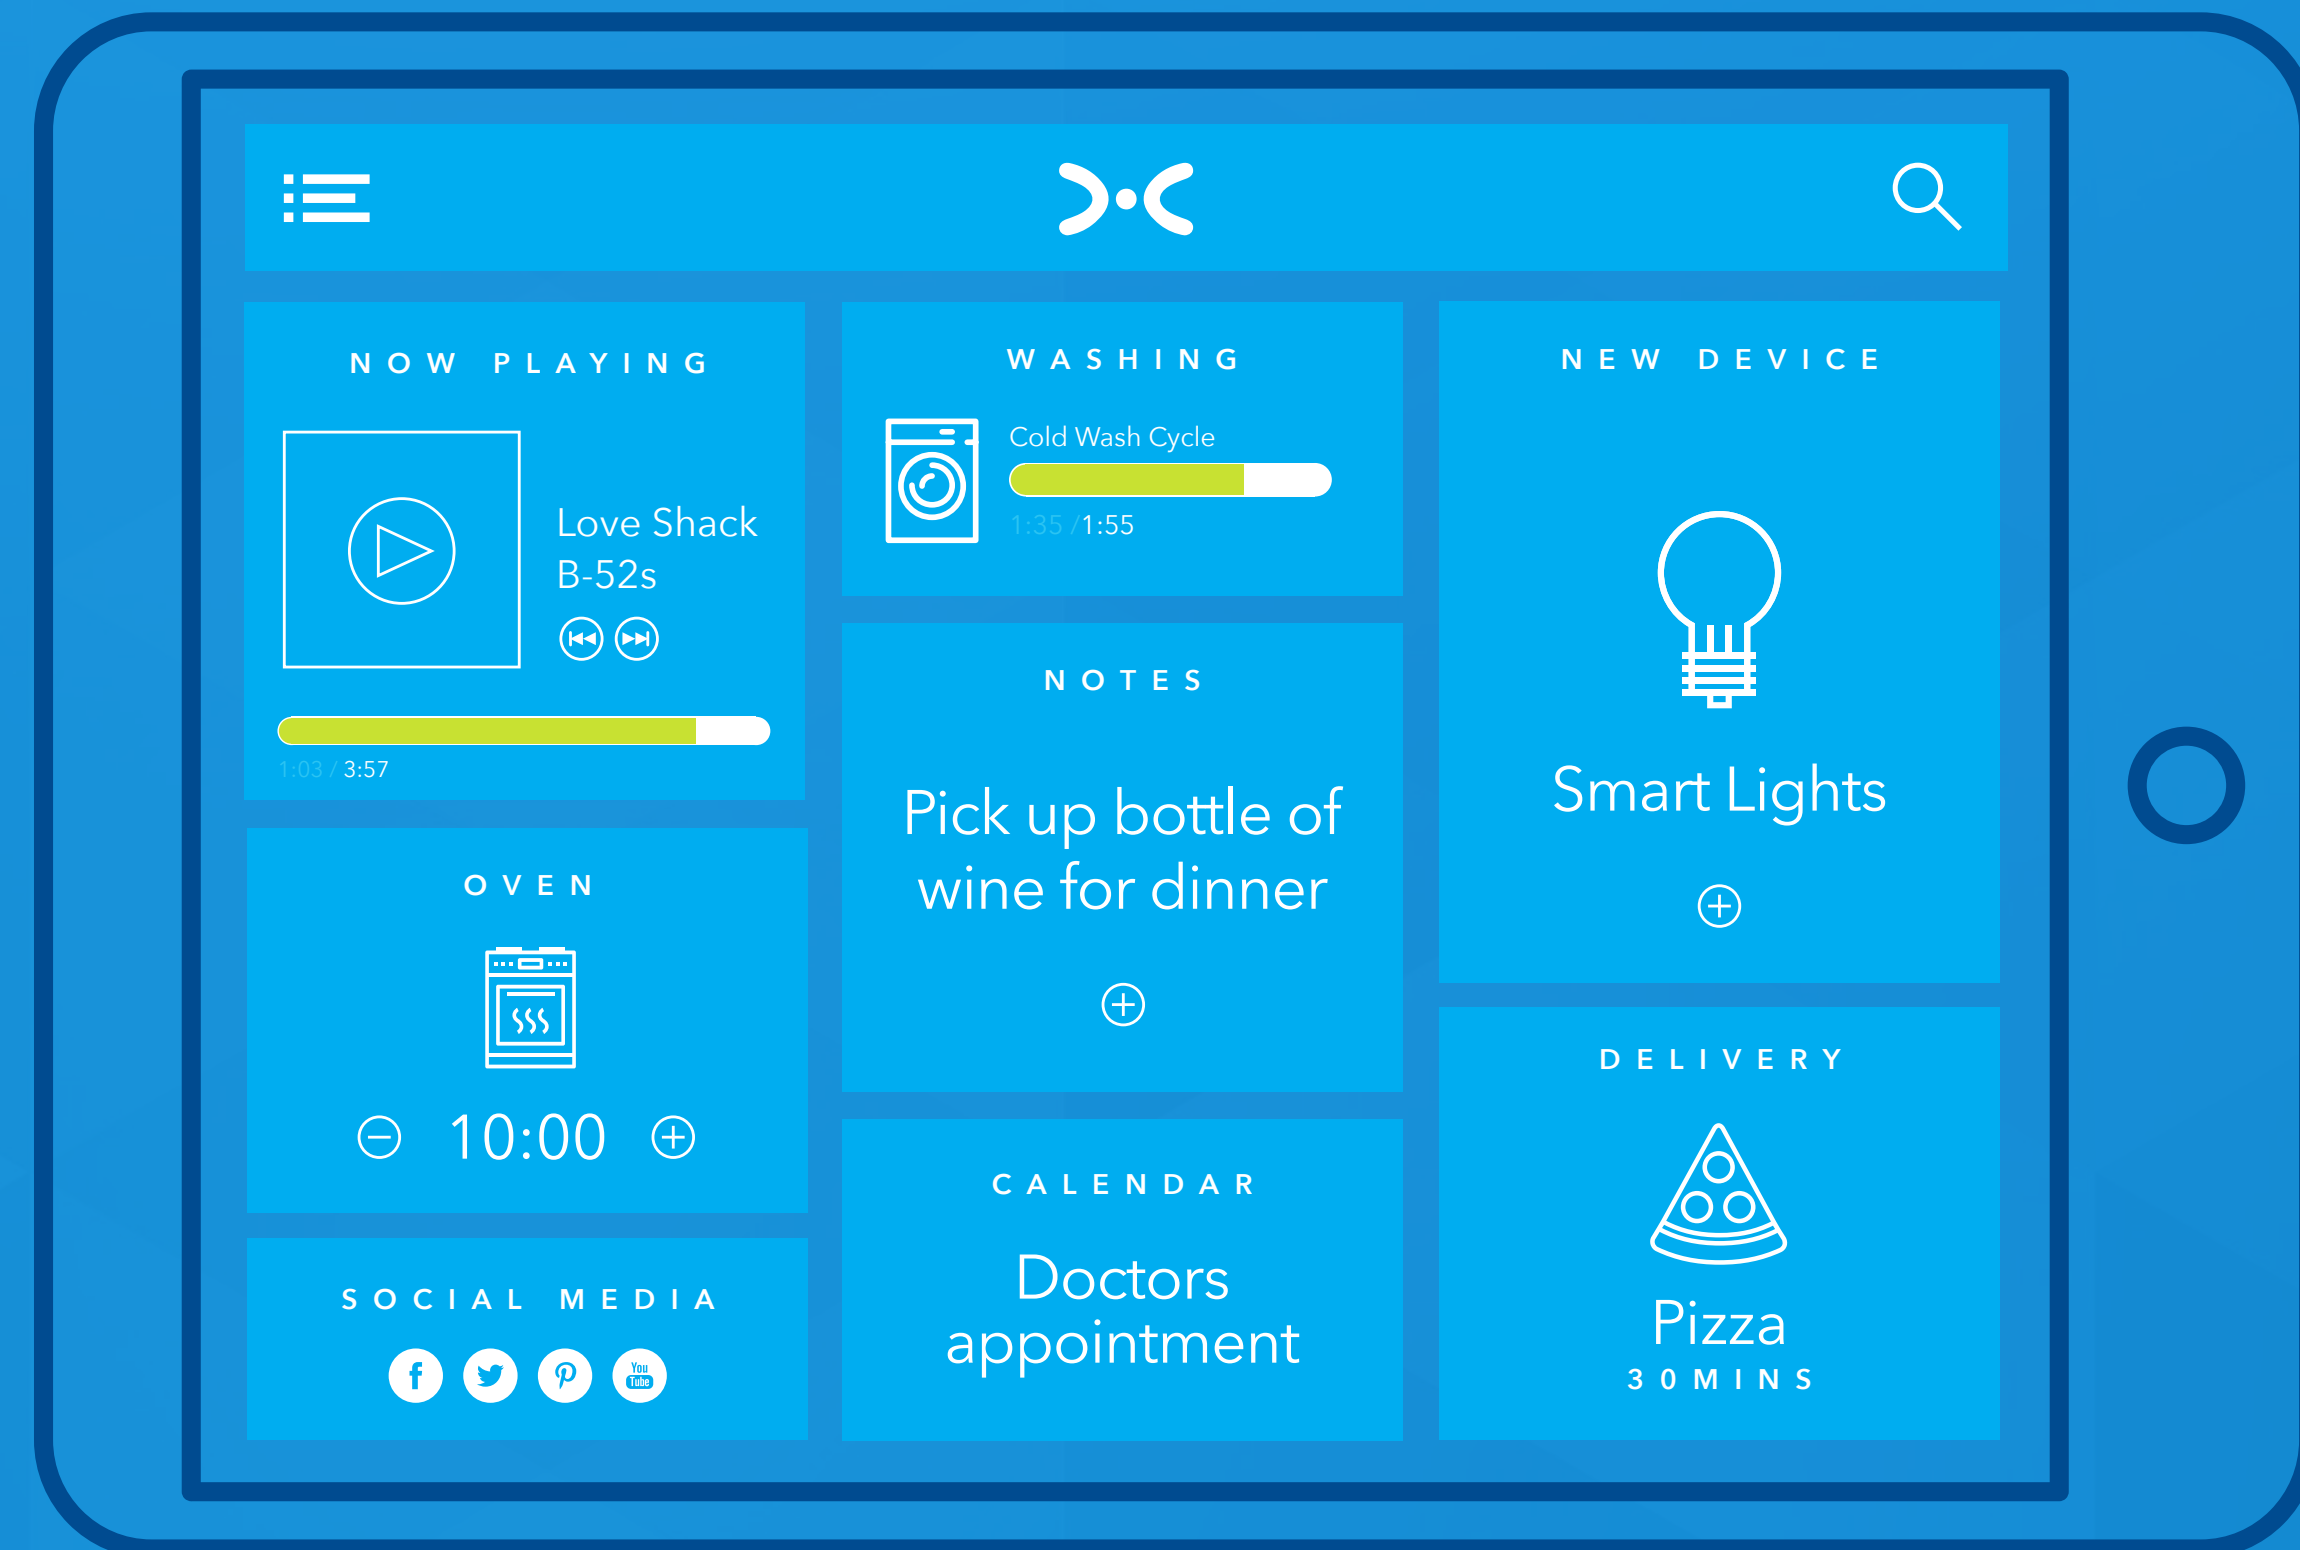

Automation

Security

Communication

Schedule

Shopping
