3 Details of the Offer

3.1 Offer

By this Prospectus, the Company is making an offer to investors identified by the Directors for up to 285,714 Shares at an issue price of \$0.035 per Share payable in full on application to raise \$10,000 (before expenses).

All of the Shares offered under this Prospectus will rank equally with Shares on issue at the date of this Prospectus. Application Forms will only be provided by the Company to the invited investors. All recipients of the Shares under the Offer will be sophisticated or professional investors (within the meaning of Sections 708(8) and 708(11) of the Corporations Act, respectively), however no Shares will be issued under the Offer to Directors, related parties of the Company or any other person if the issue would breach the takeover prohibition in section 606 of the Corporations Act.

3.2 Condition of the Offer

The Offer is conditional upon the Company achieving the minimum level of subscription for the Offer, being 285,714 Shares to raise approximately \$10,000

Satisfaction of the above condition is a requirement for the issue of Shares under the Offer. In the event that this condition is not met within 4 months of the date of this Prospectus (or such period as varied by the ASIC), all Application Monies will be returned to Applicants without interest as soon as practicable thereafter and no Shares will be issued under the Offer.

3.3 Purpose of this Prospectus

The Company is seeking to raise only a nominal amount of \$10,000 (before expenses) under this Prospectus and, accordingly, the purpose of this Prospectus is not to raise capital. The Directors intend to apply the proceeds from the Offer to expenses of the Offer and to working capital.

The primary purpose of this Prospectus is to remove any trading restrictions that may be attached to Shares issued by the Company prior to the Closing Date, including the issue of 35,703,041 Shares at an issue price of \$0.035 per share (**Placement Stage 2 Shares**), 1,428,571 Shares issued to a director in lieu of unpaid consulting fees pursuant to shareholder approval being obtained at the EGM (**Director Shares**) and 28,653,581 Shares issued pursuant to the exercise of the Placement Options expiring on 2 March 2019 (**Placement Option Shares**) (collectively, the Placement Stage 2 Shares, the Director Shares and the Placement Option Shares are referred to as the **EGM Shares**). The Placement Stage 2 Shares and Placement Option Shares were issued under a placement to sophisticated and professional investors, to whom the Company is not required to issue a disclosure document under the Corporations Act.

The issue of the Placement Stage 2 Shares raised approximately \$1,249,606 (before costs). These funds will be used to fund the further development of the Motif Micro technology, working capital and general corporate purposes.

The EGM Shares rank equally with existing Shares on issue. A summary of the terms of existing Shares is set out in Section 5.

Section 708A(5) of the Corporations Act provides that a sale offer does not need disclosure to investors if:

- (a) the relevant securities are in a class of securities that were quoted securities at all times in the 3 months before the day on which the relevant securities were issued;
- (b) trading in that class of securities on a prescribed financial market on which they were quoted was not suspended for more than a total of 5 days during the shorter of the period during which the class of securities were quoted, and the period of 12 months before the day on which the relevant securities were issued;

- (c) the Company has not been exempted by ASIC from the continuous disclosure provisions at any time during the relevant period referred to in paragraph (b);
- (d) the Company or any person as director or auditor of the body has not been exempted from or received an instrument of modification in relation to the financial reporting provisions at any time during the relevant period referred to in paragraph (b); and
- (e) (relevantly) the Company gives the relevant market operator for the Company a notice that complies with section 708A(6) of the Corporations Act before the sale offer is made.

The Company was voluntarily suspended from 1 September 2017 (inclusive) to 6 September 2017, and was placed into voluntary suspension again on 10 January 2018. As at the date of this prospectus, the Company has remained suspended since 10 January 2018. Accordingly, the Company has been suspended for more than 5 days during the past 12 months and therefore cannot rely on Section 708A(5) of the Corporations Act.

However, Section 708A(11) of the Corporations Act provides that a sale offer does not need disclosure to investors if:

- (a) the relevant securities are in a class of securities that are quoted securities of the body; and
- (b) either:
 - (i) a prospectus is lodged with the ASIC on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or
 - (ii) a prospectus is lodged with ASIC before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and
 - (iii) the prospectus is for an offer of securities issued by the body that are in the same class of securities as the relevant securities.

3.4 Opening and Closing Dates of the Offer

The Offer will be opened at 9.00am (AEDT) on 8 March 2018 (**Opening Date**) and will remain open until 5.00pm (AEDT) on 9 March 2018 (**Closing Date**), subject to the right of the Directors to either close the Offer at an earlier time and date or to extend the Closing Date without prior notice, subject to the requirements of the Listing Rules.

3.5 Application for Shares

To subscribe for Shares complete and return the Offer Application Form, which will be provided with a copy of this Prospectus by the Company at the Company's discretion, in accordance with the instructions set out in the Offer Application Form.

Completed Offer Application Forms and Application Monies must be received by the Company prior to 5.00pm (AEDT) on the Closing Date. Cheques must be made payable to "**YPB Group Limited**" and crossed "**Not Negotiable**". All cheques must be in Australian currency. No brokerage or stamp duty is payable.

Offer Application Forms should be delivered to:

Robert Whitton : rob.whitton@ypbsystems.com.

Level 29, 66 Goulburn St, Sydney, 2000

An original, completed and lodged Application Form together with a cheque for the Application Monies (if applicable) constitutes a binding and irrevocable offer to subscribe for the number of Securities specified in each Application Form. The Application Form does not need to be signed to be valid.

If the Application Form is not completed correctly or if the accompanying payment is for the wrong amount, it may be treated by the Company as valid. The Directors' decision as to whether to treat such an Application Form as valid and how to construe, amend or complete the Application Form is final, however, for Application Forms an Applicant will not be treated as having applied for more Shares than is indicated by the amount of the cheque for the Application Monies.

Applicants are encouraged to lodge their Application Forms as soon as possible, as the Offer may close early without notice.

3.6 Minimum subscription

The Offer is conditional on the Company achieving the minimum level of subscription of 285,714 new Shares to raise approximately \$10,000. No Shares under the Offer will be issued until the minimum subscription has been reached. If the minimum subscription has not been achieved within 4 months from the date of this Prospectus (or such period as varied by the ASIC), all Application Monies will be refunded to Applicants without interest in accordance with the Corporations Act.

3.7 Oversubscription

No oversubscriptions for the Offer will be accepted by the Company.

3.8 Allotment of Shares and Application money

Shares will be issued only after all Application Monies have been received and ASX has granted permission for the Shares to be quoted. It is expected that Shares will be issued on 12 March 2018 and trading of the Shares on ASX is expected to commence 13 March 2018. Holding statements for Shares issued under the Offer will be mailed as soon as practicable after their issue.

All Application Monies received before Shares are issued will be held in a special purpose account for the purpose of depositing Application Monies. This account will be established and kept by the Company in trust for each applicant. Any interest earned on the Application Monies will be for the benefit of the Company and will be retained by the Company irrespective of whether grant takes place and each applicant waives the right to claim any interest.

The Directors will determine the allottees of all the Shares the subject of the Offer in their sole discretion. The Directors reserve the right to reject any application or to allot any applicant fewer Shares than the number applied for.

Where the number of Shares allotted is less than the number applied for, the surplus monies will be returned by cheque as soon as practicable after the Closing Date. Where no allotment is made, the amount tendered on application will be returned in full by cheque as soon as practicable after the Closing Date. Interest will not be paid on monies refunded.

3.9 Underwriting

The Offer is not underwritten.

3.10 ASX Quotation

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If approval is not obtained from the ASX before the expiration of 3 months after the date of issue of the Prospectus (or such period as varied by ASIC), the Company will not issue any Shares and will repay all Application Monies for the Shares within the time prescribed under the Corporations Act, without interest. The fact that the ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

3.11 Restrictions on the distribution of the Prospectus

The distribution of this Prospectus outside the Australia may be restricted by law. This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

Residents of countries outside Australia should consult their professional advisers as to whether any government or other consents are required, or whether any formalities need to be observed should they wish to make an application to take up Shares on the basis of this Prospectus. The return of a duly completed Application Form will be taken to constitute a representation and warranty that there has been no breach of such laws and that all approvals and consents have been obtained.

3.12 **CHESS and issuer sponsorship**

The Company operates an electronic CHESS sub-register and an electronic issue sponsored sub-register. These two sub-registers will make up the Company's register of Securities.

The Company will not issue certificates to security holders. Rather, holding statements (similar to bank statements) will be dispatched to security holders as soon as practicable after issue. Holding statements will be sent either by CHESS (for security holders who elect to hold Securities on the CHESS sub-register) or by the Company's Share Registry (for security holders who elect to hold their Securities on the issuer sponsored sub-register). The statements will set out the number of Securities issued under this Prospectus and the Holder Identification Number (for security holders who elect to hold Securities on the CHESS sub register) or Shareholder Reference Number (for security holders who elect to hold their Securities on the issuer sponsored sub-register). Updated holding statements will also be sent to each security holder following the month in which the balance of their security holding changes, and also as required by the ASX Listing Rules and the Corporations Act.

3.13 **Taxation implications**

The Directors do not consider it appropriate to give Applicants advice regarding the taxation consequences of subscribing for Shares under this Prospectus.

The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Applicants. As a result, Applicants should consult their professional tax adviser in connection with subscribing for Shares under this Prospectus.

3.14 **Major activities and financial information**

A summary of the major activities and financial information relating to the Company is included in the 2016 Annual Report, which was lodged with the ASX on 29 March 2017.

The Company's continuous disclosure notices (ie ASX announcements) since 29 March 2017 are listed in Section 7.3 of this Prospectus.

Copies of these documents are available free of charge from the Company. Directors strongly recommend that Shareholders review these and all other announcements prior to deciding whether or not to participate in the Offer.

3.15 **Enquiries**

This document is important and should be read in its entirety. Persons who are in any doubt as to the course of action to be followed should consult their stockbroker, lawyer, accountant or other professional advisor without delay. Any questions concerning the Offer should be directed to the Company Secretary, Robert Whitton on +61 (02) 8263 4000.

5 Rights and liabilities attaching to Shares

The following is a summary of the more significant rights and liabilities attaching to Shares to be issued pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice. Full details of the rights and liabilities attaching to Shares are set out in the Corporations Act, ASX Listing Rules and the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

The rights, privileges and restrictions attaching to Shares can be summarised as follows:

(a) Voting rights

Subject to the rights or restrictions for the time being attached to any other class or classes of Shares (at present there are none), at meetings of Shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative (and a partly paid share only has a fractional vote);
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him or her, or in respect of which he or she is appointed a proxy, attorney or representative, has one vote for the Share.

(b) Rights on winding up

Subject to the rights of holders of Shares with special rights in a winding up (at present there are none), on a winding up of the Company all assets that may be legally distributed (by a liquidator with the sanction of a special resolution of the Shareholders) among Shareholders will be distributed in proportion to the number of fully paid Shares held by them.

(c) Transfer of Shares

Generally, Shares in the Company are freely transferrable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provision of a law of Australia, and the transfer not being in breach of the Corporations Act or the ASX Listing Rules.

(d) Future increases in capital

The issue of Shares is under the control of the Directors. Subject to restrictions on the issue of Shares to Directors or their associates, the ASX Listing Rules, the Constitution and the Corporations Act, the Directors may issue or otherwise dispose of Shares on such terms and conditions as they see fit.

(e) Variation of rights

The Constitution provides that, if at any time the share capital of the Company is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of the issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(f) Dividend rights

Subject to the rights of holders of shares issued with special, preferential or qualified rights, the profits of the Company which the Directors determine to distribute by way of

dividend are divisible among the holders of Shares in proportion to the number of Shares held by them (and a partly paid Share is counted as a fraction of a fully paid Share, equal to the amount paid on it, divided by the total issue price of the Share for the purposes of payment of a dividend).

(g) General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative, to attend and vote at general meetings of the Company. Shareholders may requisition meetings in accordance with Section 249D of the Corporations Act and the Constitution.

6 Risk Factors

Activities in the Company, as in any business, are subject to risks, which may impact on the Company's future performance.

The Directors consider that the following summary, which is not exhaustive, represents some of the specific risk factors, which investors need to be aware of in evaluating the Company's business and the risks of increasing their investment in the Company. The Shares offered under this Prospectus are speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to carefully consider the following risk factors in addition to the other information presented in the Prospectus.

The Directors recommend that Shareholders and potential investors examine the contents of this Offer Document together with previous ASX disclosures and public documents of the Company, including its most recent audited financial statements, and rely on advice of their professional advisers before deciding whether or not to apply for Shares pursuant to this Offer Document.

(a) Specific risk factors

(i) Intellectual property

To market and protect its market position, it is important for the Company to protect the intellectual property in its brand and the technology. Although the technology is patented, there may be situations where it cannot be protected or is subject to unauthorised disclosure, infringement, or challenge by a third party. This may require significant cost and effort to defend or to obtain the necessary protections to prevent such conduct (as the case may be).

There is a risk that other individuals or companies may claim to have an interest in intellectual property used by the Company. Intellectual property or trade secrets may be challenged by other parties and defending such actions may adversely impact the Company's earnings. In addition, if the Company is required to develop or support new technology and intellectual property, it may require significant capital expenditure by the Company.

The Company will acquire trade secrets and other intellectual property rights that are important assets. The Company may therefore rely on a combination of confidentiality and license agreements with its consultants and third parties with whom it has relationships, as well as domain name, trade secret, copyright and patent laws, to protect its brand and other intellectual property rights. However, various events outside of the Company's control could pose a threat to its intellectual property rights, as well as to its products and technologies.

(ii) Reliance on key personnel

The Company relies on the experience and knowledge of its management team, in particular John Houston. The Company is also dependent on its ability to recruit and retain suitably qualified personnel. In the event that such key personnel left the Company and it was unable to recruit suitable replacements, such loss could have a materially adverse effect on the Company.

(iii) Increased competition

The anti-counterfeit and brand protection market is highly competitive. This competition has intensified as a result of improvements in technology. The actions of an existing competitor or the introduction of a new competitor in the anti-counterfeit market may make it difficult for the Company to grow its revenue, which in turn, may have an adverse effect on its profitability.

If the Company's technology proves to be less successful or more costly than its competitors products, the business of the Company could be adversely affected.

(iv) Growth prospects and Company expansion plans

The Company's growth prospects are dependent upon a number of factors, including, customer take up and execution of rollout. There is a risk that the Company may encounter potential issues arising from operating in foreign jurisdictions, including marketing restrictions, regulations regarding anti-theft, and protecting its intellectual property. These risks will vary in importance depending on the countries the Company chooses to enter into. If the Company fails to execute any expansion plan and cannot attract buyers for its products, its financial performance is likely to be negatively affected.

(v) Reliance on access to internet

The Company will depend on the ability of its users to access the internet. Access is provided by various classes of entities in the broadband and internet access marketplace. Should any of these entities disrupt, restrict or affect the cost of access to the Company's products, usage of the Company's products may be negatively impacted.

(vi) Programming errors

The Company's products will contain complicated programming and its objectives are to quickly develop and launch new and innovative products and features. The Company's products may therefore contain, now or in the future, errors, bugs or vulnerabilities. Any errors, bugs or vulnerabilities discovered could result in (amongst other consequences) damage to the Company's brand, loss of customers, falls in revenues or liability for damages, any of which could adversely affect the Company's business and operating results.

(vii) Liability risk

Whilst the Company will take precautions both legal and physical, the nature of the Company business of providing products and services to the anti-counterfeit field, may give rise in certain circumstances to potential legal action by either customers or end users in the areas of product or public liability. If legal action was taken against the Company, it could have a material adverse effect on the financial performance of the business and to its reputation and brand name.

(viii) Reliance on key supplier relationships

The Company relies on various key supplier relationships for certain parts of its business. The loss or impairment of any of these relationships could have a material adverse effect on the Company's results of operations, financial condition and prospects, at least until alternative arrangements can be implemented. In some instances, however, alternative arrangements may not be available or may be less financially advantageous than the current arrangements.

In particular, the Company relies on third parties to provide intellectual property development and manufacturing services. Although there are long term contracts in place with stringent non-compete provisions, the Company is vulnerable to any change in output from these suppliers. Should any of these suppliers significantly reduce their supply to the Company, this will have an adverse effect of the growth prospects and financial performance of the Company.

(ix) Product selection

An important element of the Company's business is an ability to assess and identify products that appeal to the Company's target market. Newer anti-counterfeit and brand protection technologies and products are increasing the number of choices available to customers. This may make the Company's products less attractive and any misjudgements in demand or changes in customer preferences could result in reduced sales, increase inventory and/or lower gross margins. In addition, existing products or products in the future developed by the Company may experience performance problems rendering them difficult or impossible to sell, or subject to product recall which could have a material adverse impact on the Company's financial performance.

(x) Delivery risk

Due to the nature of the Company's product being manufactured in the PRC, the potential exists for delays or cancellations in the delivery of products without any practical recourse being available to the Company to recover lost earnings. Any such delay or cancellation would have an adverse impact on the Company's earnings and profits.

(xi) Exchange rates

The Company is exposed to movements in foreign exchange rates. As the Company will report financial earnings in Australian dollars, and because the Company does not plan to hedge against movements in the exchange rate, significant fluctuations in exchange rates may impact on the Company's margins and earnings adversely.

(xii) Funding

While the Company believes it will have sufficient funds after completion of the Offer to meet all of its growth and capital requirements for the near term, the Company may seek to exploit opportunities of a kind that will require it to raise additional capital from equity or debt sources. There can be no assurance that the Company will be able to raise such capital on favourable terms or at all. If the Company is unable to obtain such additional capital, it may be required to reduce the scope of its anticipated activities, which could adversely affect its business, financial condition and operating results.

(xiii) Concentration of shareholding

John Houston (or entities controlled by him) will hold approximately 20.85% of all Shares of the Company to the Official List of the ASX (upon completion of the Offer and assuming that the Options on issue are not exercised). As a result, John Houston has a significant influence over all matters that require approval by Shareholders, including the election and removal of Directors and approval of significant transactions (unless prevented from voting under the Corporations Act or Listing Rules). The ability of other Shareholders to influence corporate decisions of the Company will therefore be reduced.

(b) Risks associated with investing in the share market

(i) Share price fluctuations

The Shares are to be quoted on the ASX, where the price may rise or fall relative to the Offer Price. The Shares issued or sold under this Prospectus carry no guarantee in respect of profitability, dividends, return of capital, or the price at which they may trade on the ASX. The value of the Shares will be determined by the share market and will be subject to a range of factors, many or all of which may be beyond the control of the Company and the management team.

(ii) Economic factors

Changes in economic and business conditions in Australia or internationally may affect the fundamentals of the Company's target markets or its costs structure and profitability. Adverse changes in the level of inflation, interest rates, consumer spending, and employment rates, are outside the control of the Company and the management team and may have an adverse effect on the financial performance and/or financial position of the Company.

(iii) Government regulation

The Company is exposed to changes in the laws and regulations of the PRC initially, then other countries where the Company will operate. In future, laws may be enacted which effect greater regulation upon the anti-counterfeit industry which may increase the Company's costs to comply with the relevant government regulations. In addition, taxation legislation may change which could impact the Company's profitability.

(iv) Taxation

Future changes to tax law or changes to the way in which taxation laws are interpreted in the various jurisdictions in which the Company operates or makes underlying investments may correspondingly impact the taxation liability of the Company or the value of its assets.

There are tax implications arising from purchasing and selling Shares, receiving distributions from the Company, and participation in any on-market Share buy-backs. Accordingly, investors should seek their own independent taxation advice before applying for Shares under the Offer.

(v) Insurance risks

Although insurance is maintained by the Company, no assurance can be given that adequate insurance will continue to be available to the Company in the future on commercially acceptable terms.

In addition, the Company may incur liabilities to third parties (in excess of any insurance cover or statutory reserves) arising from negative environmental impacts or other damages or injury. There is a risk of an occurrence of a significant event leading to losses that are not fully covered by insurance.

(vi) Other external factors:

Other external factors that may affect the value of the Shares include (but are not limited to):

- (A) changes in investor sentiment toward particular market sectors;
- (B) changes in interest rates and the rate of inflation;
- (C) the demand for, and supply of, capital;

- (D) changes in exchange rates;
- (E) changes to accounting standards; and
- (F) the nature of competition in the industries in which the Company operates.

In general terms a "transaction specific prospectus" is only required to contain information in relation to the effect of the issue of securities on the Company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company, which has been notified to the ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of the ASX as applicable from time to time throughout the 3 months before the issue of this Prospectus which required the Company to notify the ASX of information about specified events or matters as they arise for the purpose of the ASX making that information available to the stock market conducted by the ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act, states that:

 - (ii) any half-year financial report lodged by the Company with ASIC after the lodgement of the annual financial report referred to in Section 7.2(c)(i) and before the lodgement of this Prospectus with ASIC; and
 - (iii) any continuous disclosure documents given by the Company to the ASX in accordance with the ASX Listing Rules as referred to in Section 674(1) of the Corporations Act after the lodgement of the annual financial report referred to in Section 7.2(c)(i) and before the lodgement of this Prospectus with ASIC.

There is no information which has been excluded from a continuous disclosure notice in accordance with the ASX Listing Rules that investors or their professional advisers:

- (a) would reasonably require for the purpose of making an informed assessment of:
 - (i) the assets and liabilities, financial position and performance, profits and losses and prospects of the Company; and
 - (ii) the rights and liabilities attaching to the Shares the subject of this Prospectus; and
- (b) would reasonably expect to find in this Prospectus.
