GOLD FUND PARTNERSHIPS

BLOCKCHAIN, WEB3, GAMING, NFT AND DEFI (DAO) PARTNERSHIPS

Partnering with other NFT Projects to provide paired NFT and Tokenomics , in game currencies for blockchain and web3 gaming and investment opportunities for DeFi and DAOs.

Droid Capital

As a Droid Capital NFT holder, you become part of an exciting DAO that capitalizes upon an array of leading, Crypto-native opportunities that are difficult for public investors to access, biased toward the Metaverse, DeFi, Gaming and utility providing NFT sectors.

The Droid Capital founders do not make investments on your behalf. It is DroidDAO that executes the project's strategy. As a Droid Capital NFT holder, you have a say in what this is.

Our vision is for DroidDAO to be built around a native \$DROID token and these plans will evolve with the increase in the value of DroidDAO.
