

IMPORTANT INFORMATION

PURPOSE OF PRESENTATION: This presentation has been prepared by Eagle Mountain Mining Limited (ACN 621 541 204) (Eagle Mountain) and should be read in conjunction the Company's Annual Report, issued by Eagle Mountain 22 October 2021 and subsequent ASX announcements made by the company.

NATURE OF PRESENTATION: This presentation is not investment advice and should not be relied upon to make any investment decision. This presentation is not a prospectus or other disclosure document and does not contain all of the information which would be found in such documents or which may be required by an investor to make a decision regarding an investment in Eagle Mountain. This presentation has not and will not be lodged with the Australian Securities and Investments Commission.

FORWARD-LOOKING STATEMENTS: This presentation contains forward-looking statements which incorporate an element of uncertainty or risk, such as 'intends', 'may', 'could', 'believes', 'estimates', 'targets' or 'expects'. These statements have been prepared with all reasonable care and attention, based on an evaluation of current economic and operating conditions, as well as assumptions regarding future events. These events are, as at the date of this presentation, expected to take place, but there cannot be any guarantee that such events will occur as anticipated or at all given that many of the events are outside Eagle Mountain's control. The stated events may differ materially from results ultimately achieved. Accordingly, Eagle Mountain and its officers, employees and advisers, cannot and do not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this presentation will actually occur. Further, other than as required by law, Eagle Mountain may not update or revise any forward-looking statement if events subsequently occur or information subsequently becomes available that affects the original forward-looking statement

NO WARRANTIES OR REPRESENTATIONS: Although Eagle Mountain has used due care and diligence in the preparation of this presentation, to the extent permitted by law, no representation or warranty is made by Eagle Mountain nor any of its officers, employees or advisers, as to the accuracy or completeness of the information in this presentation. No information contained in this presentation or any other written or oral communication transmitted or made available shall be relied upon as a promise or representation and no representation or warranty is made as to the accuracy or attainability of any estimates, forecasts or projections set out in this presentation. No liability will attach to Eagle Mountain, or its officers, employees or advisers, with respect to any such information, estimates, forecasts or projections.

DISCLAIMER: Except for statutory liability which cannot be excluded, Eagle Mountain, its officers, employees, contractors and advisors expressly disclaim any responsibility for the accuracy or completeness of the material contained in this presentation and exclude all liability whatsoever (including in negligence) for any loss or damage which may be suffered by any person as a consequence of any information in this presentation or any error or omission therefrom.

COPYRIGHT: Eagle Mountain holds the copyright in this paper. Except as permitted under the Copyright Act 1968 (Cth), this paper or any part thereof may not be reproduced without Eagle Mountain's written permission.

COMPETENT PERSON STATEMENT The information in this document that relates to Exploration Activities is based on information compiled by Mr Fabio Vergara and Mr Brian Paull who are both Members of The Australasian Institute of Mining and Metallurgy (MAusIMM) and have sufficient experience relevant to the activity which they are undertaking to qualify as a Competent Persons as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code 2012). Mr Vergara is the Chief Geologist and Mr Paull Principal Geologist of Eagle Mountain Mining Limited and consent to the inclusion in this document of the information in the form and context in which it appears. Mr Vergara and Mr Paull hold shares and options in Eagle Mountain Mining Limited.

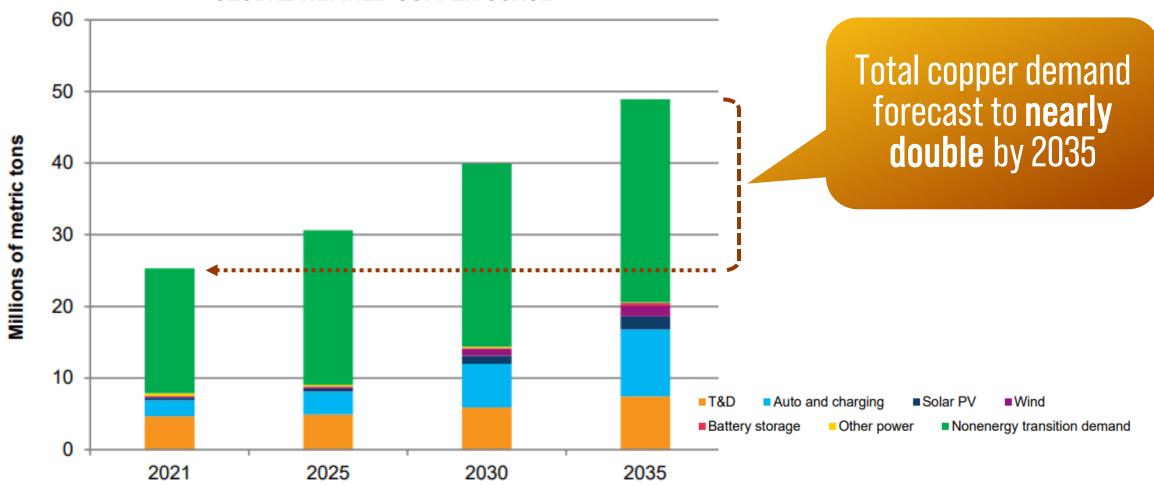

Where the Company references the JORC Mineral Resource Estimate announced on 10 March 2022 it confirms that it is not aware of any new information or data that materially affects the information included in that announcement, and all material assumptions and technical parameters underpinning the Mineral Resource Estimate within that announcement continue to apply and have not materially changed. In addition the form and context in which the Competent Persons findings are presented have not been materially modified from the original reports.

Where the Company references historic exploration results including technical information from previous ASX announcements including 25 May 2020, JORC Table 1 disclosures are included within them. The Company confirms that it is not aware of any new information or data that materially affects the information included in those announcements, and all material assumptions and technical parameters underpinning the results within those announcements continue to apply and have not materially changed. In addition the form and context in which the Competent Persons findings are presented have not been materially modified from the original reports.

COPPER TOMORROW

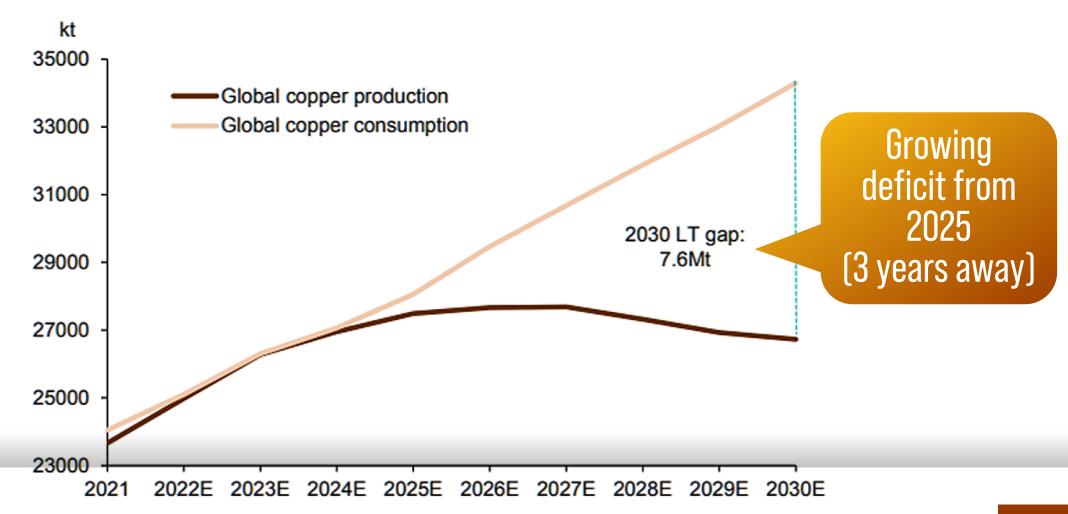

Note: Based on S&P Global's Multitech Mitigation scenario; US values are adjusted to align with Biden administration's net-zero ambitions. T&D = transmission and distribution; PV = photovoltaics; other power includes conventional generation (coal, gas, oil, and nuclear), geothermal, biomass, waste, concentrated solar power, and tidal.

LONG TERM SUPPLY GAP REMAINS UNSOLVED, WITH WIDENING MID-TERM DEFICITS

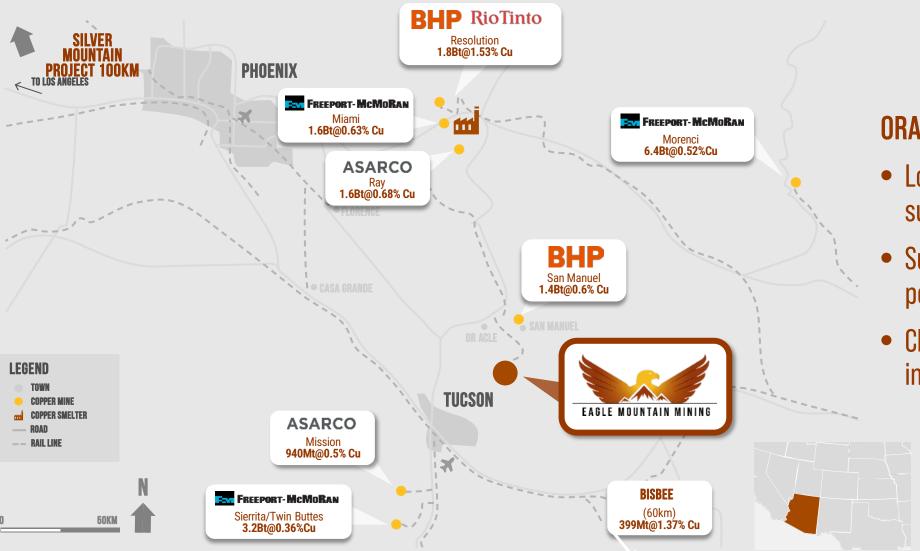

EAGLE MOUNTAIN VALUE PROPOSITION

- Tier-1 jurisdiction safe, mining friendly, local mining services available, infrastrucrure
- History of Production existing underground infrastructure, metallurgical history, previously permitted
- Large and expanding JORC Resources including optionality at lower copper cut-offs
- Focus on low emission, low disturbance mining

TIER 1 JURISDICTION: IN THE COPPER ZONE

ORACLE RIDGE PROJECT

- Located in Arizona, a mining supportive jurisdiction
- Surrounded by major porphyry projects
- Close proximity to mining infrastructure

RECOMMISSIONING OF THE EXISTING UNDERGROUND MINE COMMENCED

Recommissioning the underground mine to enable:

- Resource upgrade and expansion drilling from underground
- Access to commence various studies metallurgy and geotechnical

ACCESS TO MINERALISATION — RAPID RESTART POTENTIAL

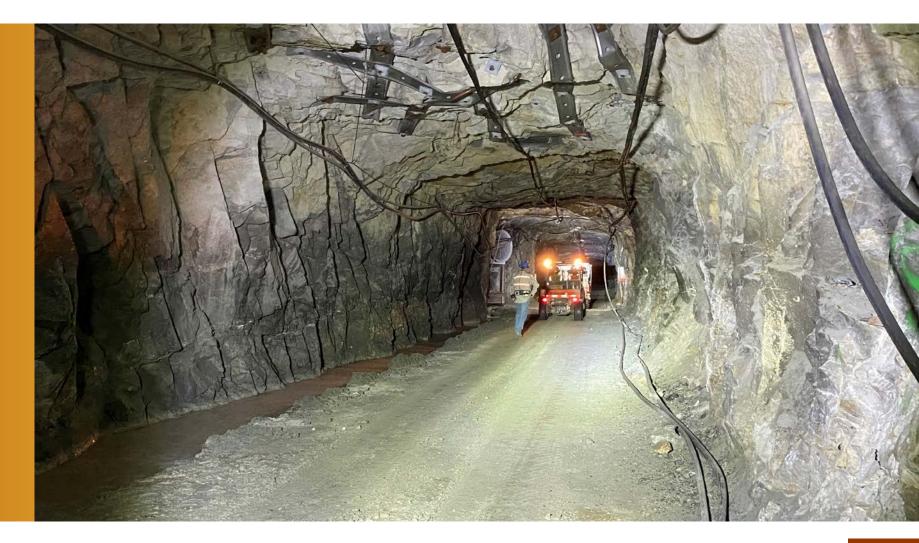

- Existing development alongside mineral resources
- Predominantly sulphide mineralisation

EXISTING DEVELOPMENT — RAPID RESTART POTENTIAL

Good ground conditions and limited dewatering assists setup of underground drilling and potential rapid restart of operations

JORC RESOURCES — PROVIDING OPTIONALITY

32% increase in contained copper at 0.8% Cu cut-off

17.0 Mt at 1.48% Cu

26.0 Mt at 1.28% Cu

1% Cu Cut-off

0.8% Cu Cut-off

Drilling continues with focus on upgrading and expanding resources

THE EAGLE MOUNTAIN OPPORTUNITY

- Copper: in-demand commodity in short supply
- Limited copper projects in development
- Existing infrastructure for low capital mining re-start
- Low disturbance as an underground operation
- Low emission mine potential
- Tier 1 jurisdiction
- Prospective geology
- JORC Resources continue to grow
- Previously mined

APPENDIX 1

The Company's Mineral Resource Statement has been compiled in accordance with the Australian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (The JORC Code 2012) and Chapter 5 of the ASX Listing Rules and ASX Guidance Note 31. The Company has no Ore Reserve estimates.

The Company governs its activities in accordance with industry best-practice. The resource reports and supporting data were subjected to internal analysis and peer-review before release.

Mineral Resources

The Company engaged SRK Consulting (Australasia) (SRK) to assist it with an interim upgrade to its existing Mineral Resource Estimate (MRE). Through the inclusion of only 59 drill holes drilled up until October 2021, the MRE tonnes were increased by 39% and the Company declared its maiden Measured Resource.

On 10 March 2022 the Company announced an upgraded JORC 2012 compliant MRE for the Oracle Ridge Project at a 1% Copper cut-off grade, the Resource at Oracle Ridge now stands at 17.0 Mt at 1.48% Cu, 15.09g/t Ag and 0.17 g/t Au. A summary of the Resource is presented in Table 1 below.

Resource Category	Tonnes [Mt]	Cu [%]	Ag [g/t]	Au [g/t]	Contained Cu [t]	Contained Ag [Oz]	Contained Au [Oz]
Measured	2.1	1.54	15.84	0.22	33,000	1,093,000	15,000
Indicated	7.5	1.49	14.50	0.18	112,000	3,518,000	44,000
Inferred	7.3	1.45	15.48	0.15	106,000	3,632,000	34,000
Total	17.0	1.48	15.09	0.17	251,000	8,243,000	93,000

Note - Totals may not add due to rounding differences

The upgraded MRE has 251,000t of contained copper, 8.2Moz of silver and 93Koz of gold and compared to the previous MRE there was a 36% increase in contained copper and a 39% increase in tonnes.
