8.8 If Item 8.7 is less than 2 quarters, please provide answers to the following questions:

- Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: Yes

- Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

Subsequent to balance date, the Company issued 21,266,670 fully paid ordinary shares at an issue price of A\$0.21, raising a total of A\$4,466,001 before cost.

In addition to the above, Frankfurt listed investment company 2Invest AG also invested A\$6 million in a series of Secured Bonds (18 months duration to be redeemed no later than 31 January 2023, carrying a 20% per annum coupon rate, payable in cash semi-annually in arrears) issue by Theta Gold to fund pre-development expenditures for the TGME Gold Project and general working capital.

In addition, (as per ASX Release dated 25 March 2021), the Company has entered into an At-The-Market Subscription Deed ("ATM") with Acuity Capital. The ATM provides the Company the opportunity to draw-down up to A\$15 million of standby equity capital with the expiry of the ATM being 31 July 2023.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes.

The Company has completed a Pre-Feasibility Study on selected underground mines which has demonstrated excellent project economics (ASX announcement 13 April 2021) at a time of historically high gold prices.

The group's large tenement holding in South Africa is potentially very prospective and remains largely unexplored using modern technology. The Theta Project, potential underground mines development and the prospective tenement holding should underpin the company's ability to raise funds for its business needs.
