NEW PRODUCT LAUNCH – VERIGROW® SUPPLEMENT

Veratin Limited (NSX: VTN) (the **Company**) is pleased to announce it has launched a new product – Verigrow® Supplement.

The Company's current fertiliser is primarily a nitrogen-based product that is amino-acid rich. The amino acids present reduces the need for high levels of phosphorus and potassium by some 25%-30%. Verigrow® Supplement is an all-purpose product containing a balanced blend of macro (except phosphorus) and micro nutrients, and trace elements. Verigrow® Supplement complements the Company's existing range of liquid fertiliser and soil improver products.

Additionally, the Company is expected to announce the imminent release of its Verigrow® Phosphorus product, providing plants with phosphorus, the last missing macronutrient from its existing Verigrow® range of liquid fertilisers and soil improver products.
